Notes:

It is strongly recommended by the Board of Elections that you know who your counterpart is prior to Election Day. You should discuss breaks and meal times for all Inspectors, assign bi-partisan teams to tasks throughout the day, rotation schedules and supply return and delivery at the Close of Polls. You should both be in agreement on all Site Chair duties before arriving on Election Day morning. You may call your Training Team to receive the name and phone number of your counterpart approximately one week prior to Election Day at 753-1599.

Reminders:

All assigned Inspectors should be knowledgeable and prepared for voters who will be utilizing the IC-2 (BMD).

Election District Tables and Supplies:

- Keep enough space between tables to separate each Election District (do not butt tables together).
- Keep the supply bags for each Election District together at all times! The Green Ballot Storage Bag, the District Specific supplies and the Poll Book may NEVER be separated. Store additional supplies under the table.
- Checking in the Voter: Make sure that all Inspectors are taking the time to properly check voters in, follow the check-in procedures from the Inspector Manual. Make sure every voter is being given good instructions when issued their ballot, and that Inspectors are using care and caution with the Poll Books.

Voting Machines and Privacy Areas:

- Protecting the privacy of the voter is critical.

Remind all Inspectors about privacy protocol:

- No hovering around the voting machines and privacy areas.
- Inspectors should never handle marked ballots, unless asked by the voter. In this case it constitutes assistance and should be recorded on Section III of the Challenge Report.

Election Day Notes

- Assign Inspectors to tasks at the beginning of the day and set a schedule.
- Discuss the tasks and duties and make sure all the Inspectors are familiar with the procedures.
- Make sure that bi-partisan teams of Inspectors are assigned for each task.
- Ensure a smooth and fair rotation of tasks, breaks and time for voting.
- There should always be one (1) Site Chair in the polling site at all times.
- Make sure procedures are being followed and voters are being processed fairly and politely.
- Site Chairs must work together and follow the advice of Coordinators from either party.
- Keep your Coordinator and the Board of Elections informed of any problems or concerns.
