**ARTICLE 8--MISCELLANEOUS AUTHORITIES**

**TITLE 31--MONROE COUNTY AIRPORT AUTHORITY**

**§ 2751. Statement of legislative findings and purpose**

The legislature hereby finds and declares as follows:

1. The economic well-being of the state and the general welfare of its people require adequate, safe, secure and efficient aviation and transportation facilities at a reasonable cost to the people.
2. The strengthening and improvement of aviation facilities and related services for the western part of the state is a matter of vital importance not only to the residents of western New York but to all the state's residents and is therefore a matter of state concern.
3. In order to insure a healthy economy for such area and to promote the general welfare of its residents, it is necessary to expand and improve the existing aviation facilities and services in Monroe county in such a manner as to stimulate and promote increased local, state, national and international air travel and commerce through western New York.
4. The health, welfare, safety and security of the state's residents and of those passengers using air transportation requires coordinated operation of aviation facilities and services in Monroe county by a public benefit airport authority.
5. The purposes of such authority shall be (i) to stimulate and promote economic development, trade and tourism (ii) to acquire, construct, reconstruct, continue, develop, equip, expand, improve, maintain, finance and operate aviation and other related facilities and services within Monroe county (iii) to promote safe, secure, efficient and economical air transportation by preserving and enhancing airport capacity (iv) to form an integral part of a safe and effective nationwide system of airports to meet the present and future needs of civil aeronautics and national defense and to assure inclusion of the authority's facilities in state, national and international programs for air transportation and for airport or airway capital improvement, all in accordance with the provisions of this title (v) to insure that aviation facilities authorized pursuant to this title shall provide for the protection and enhancement of the natural resources and the quality of the environment of the state and the western New York area.
6. Such purposes are in all respects public purposes for the benefit of the people of the State of New York and for which public funds may be expended and both the county and the authority in carrying out their respective powers and duties under this title shall be deemed to be acting in a governmental capacity. The acquisition, construction, reconstruction, development, expansion, improvement, equipping, operation and maintenance of any project financed or undertaken by the authority or the county shall be deemed to be the performance of an essential governmental function by the authority or the county acting in its governmental capacity, whether such project shall be owned or operated by the authority or by any person or public corporation.

ARTICLE 8--MISCELLANEOUS AUTHORITIES

TITLE 31--MONROE COUNTY AIRPORT AUTHORITY

§ 2754. Advances on behalf of the authority; transfer of property to authority; acquisition of property by county for authority

1. In addition to any powers granted to it by law, the county may, from time to time, appropriate by resolution sums of money to defray project costs or any other costs and expenses of the authority including operating expenses. Subject to the rights of bondholders, the county may determine if the moneys so appropriated shall be subject to repayment by the authority to the county and, in such event, the manner and time or times for such repayment.

2. Notwithstanding any inconsistent provision of any general, special or local law, ordinance, resolution or charter, any public corporation may, by a majority vote of its governing body and the approval of its chief executive officer, give, grant, sell, convey, loan, license the use of or lease to the authority any property or facilities, including aviation facilities and pollution control facilities, which are useful in connection with the exercise by the authority of its powers under this title. Any such gift, grant, sale, conveyance, loan, license or lease shall be upon such terms and conditions, and for such term or terms of years, subject to the rights of the holders of any bonds, as the authority and such public corporation may agree. Any such gift, grant, sale, conveyance, lease, loan or license shall not be subject to referendum, permissive or mandatory. For purposes of section 136.00 of the local finance law, any agreement by the authority to assume the primary responsibility for the payment of the principal and interest on any bonds or notes issued by any such public corporation shall, so long as such agreement shall continue to be honored by the authority, cause such bonds or notes to be deemed to have been refunded and any such public corporation may deduct from its gross indebtedness any outstanding indebtedness contracted for such property or facility to be acquired by the authority.

3. The county may acquire by purchase, grant, lease, gift or condemnation pursuant to the eminent domain procedure law real property in the name of the county for any corporate purpose of the authority.

4. Notwithstanding the provisions of any other law, general, special or local, real property acquired by the authority or the county from the state may be used for any corporate purpose of the authority.

CHAPTER 43-A OF THE CONSOLIDATED LAWS  
ARTICLE 8--MISCELLANEOUS AUTHORITIES  
TITLE 31--MONROE COUNTY AIRPORT AUTHORITY  
§ 2757. Special powers of the authority

In order to effectuate the purpose of this title:

1. The authority may enter into any joint service arrangements as hereinafter provided.
2. The authority may, on such terms and conditions as the authority may determine necessary, convenient or desirable, establish, construct, effectuate, operate, manage, maintain, renovate, improve, extend or repair any aviation facilities or pollution control facilities, or may provide for such establishment, construction, effectuation, operation, management, maintenance, renovation, improvement, extension or repair by contract, lease, or other arrangement on such terms as the authority may deem necessary, convenient or desirable with the federal government, any state or agency or instrumentality thereof, any person or public corporation. In connection with the operation of any such facilities, the authority may establish, construct, effectuate, operate, manage, maintain, renovate, improve, extend or repair or may provide by contract, lease or other arrangement for the establishment, construction, effectuation, operation, management, maintenance, renovation, improvement, extension or repair of any related services and activities it deems necessary, convenient or desirable.
3. The authority may establish, fix, revise, levy and collect or cause to be established, fixed, revised, levied and collected and, in the case of a joint service arrangement, join with others in the establishment, fixing, revision, levy and collection of such fares, rentals, rates, charges, landing and field use fees, concession fees and other fees as it may deem necessary, convenient or desirable for the use and operation of any aviation facilities, and related services operated or managed by the authority or under contract, pollution control facilities, lease or other arrangement, including joint service arrangements, with the authority. Such fares, rentals, rates, charges, landing and field use fees, concession fees or other fees shall be at least sufficient at all times in the judgment of the authority to establish and maintain the combined operations of the authority on a self-sustaining basis. Such operations shall be deemed to be on a self-sustaining basis as required by this title, when the authority is able to pay or fund or cause to be paid or funded from revenues and any other funds actually available to the authority (i) the principal of, premium, if any, and the interest on the outstanding bonds of the authority as the same shall become due and payable and any capital or debt service reserve therefor and, to the extent required by any agreement between the county and the authority, the principal of and interest on any general obligation bonds, notes or other evidence of indebtedness of the county issued for or allocable to any project of the authority as the same shall become due and payable and any reserves therefor, (ii) the cost of administering, maintaining, repairing and operating any project of the authority, (iii) the cost of constructing capital improvements thereto pursuant to any agreement between the county and the authority, (iv) any liabilities incurred for or allocable to any project of the authority including any liabilities of the county assumed by the authority pursuant to any agreement between the county and the authority, as the same become due and payable, (v) any requirements of any agreement including those relating to the establishment of reserves for renewal and replacement and for uncollected fares, rentals, rates, charges and fees and covenants respecting rates and debt service and earnings coverage ratios, (vi) all other reasonable and necessary expenses of the authority, and (vii) the cost of such additional projects as may be now or hereafter authorized by law and agreed to by the authority.
4. The authority may establish and, in the case of joint service arrangements, join with others in the establishment of such schedules and standards of operations and such other rules and regulations including but not limited to rules and regulations governing the conduct, safety and security of the public as it may deem necessary, convenient or desirable for the use, operation and management of any project and related services operated or managed by the

authority or under contract, lease or other arrangement, including joint service arrangements, with the authority. Such rules and regulations governing the conduct, safety and security of the public shall be filed with the department of state in the manner provided by section one hundred two of the executive law. In the case of any conflict between any such rule or regulation of the authority governing the conduct, safety and security of the public and any local law, ordinance, rule or regulation, such rule or regulation of the authority shall prevail.

5. The authority may do all things it deems necessary, convenient or desirable to manage, control and direct the maintenance and operation of aviation facilities, equipment or property operated by or under contract, lease or other arrangement with the authority. Except as agreed to pursuant to any agreement between the authority and any public corporation and except as hereinafter specially provided, no municipality except for the county, shall have jurisdiction over any facilities of the authority or any of its activities or operations. The county shall provide for such facilities police, fire and health protection services.

6. The authority may accept unconditional grants of money or property from any municipality the whole or any part of which municipality shall be served or to be served by an aviation facility operated by the authority. Such grants of money or property would be for the purpose of assisting the authority in meeting its capital or operating expenses. The acceptance of any such grant shall not operate to make the authority an agency of the municipality making the grant.

7. Notice of such public hearing shall be published by the authority at least ten days before the date set therefor, in at least one newspaper of general circulation in the county. Such notice shall set forth the date, time and place of such hearing and shall include a brief description of the matters to be considered at such meeting. At all such hearings, any interested persons shall have an opportunity to be heard concerning the matters under consideration. **ARTICLE 8--MISCELLANEOUS AUTHORITIES**

**TITLE 31--MONROE COUNTY AIRPORT AUTHORITY**

**§ 2759. Bonds of the authority**

1. The authority shall have the power and is hereby authorized from time to time to issue bonds, notes or other obligations to pay the cost of any project or for any other corporate purpose, including the establishment of reserves to secure the bonds, the payment of principal of, premium, if any, and interest on the bonds and the payment of incidental expenses in connection therewith. The aggregate principal amount of such bonds, notes or other obligations shall not exceed two hundred million dollars (\$200,000,000), excluding bonds, notes or other obligations issued to refund or otherwise repay bonds, notes or other obligations theretofore issued for such purposes; provided, however, that upon any such refunding or repayment the total aggregate principal amount of outstanding bonds, notes or other obligations may be greater than two hundred million dollars (\$200,000,000) only if the present value of the aggregate debt service of the refunding or repayment bonds, notes or other obligations to be issued shall not exceed the present value of the aggregate debt service of the bonds, notes or other obligations so to be refunded or repaid. For purposes hereof, the present values of the aggregate debt service of the refunding or repayment bonds, notes or other obligations and of the aggregate debt service of the bonds, notes or other obligations so refunded or repaid, shall be calculated by utilizing the effective interest rate of the refunding or repayment bonds, notes or other obligations, which shall be that rate arrived at by doubling the semi-annual interest rate (compounded semi-annually) necessary to discount the debt service payments on the refunding or repayment bonds, notes or other obligations from the payment dates thereof to the date of issue of the refunding or repayment bonds, notes or other obligations and to the price bid including estimated accrued interest or proceeds received by the authority including estimated accrued interest from the sale thereof. The authority shall have power and is hereby authorized to enter into such agreements and perform such acts as may be required under any applicable federal legislation to secure a federal guarantee of any bonds.

2. The authority shall have power from time to time to renew bonds or to issue renewal bonds for such purpose, to issue bonds to pay bonds, and, whenever it deems refunding expedient, to refund any bond by the issuance of new bonds, whether the bonds to be refunded have or have not matured, and may issue bonds partly to refund bonds then outstanding and partly for any other corporate purpose of the authority. Bonds (other than notes or other evidence of indebtedness) issued for refunding purposes, which have a final maturity date longer than the maturity of the bonds being refunded, shall be approved by a resolution of the county legislature adopted by a majority vote and approved by the county executive. Bonds issued for refunding purposes shall be sold and the proceeds applied to the purchase, redemption or payment of the bonds or notes to be refunded.

3. Bonds issued by the authority may be general obligations secured by the faith and credit of the authority or may be special obligations payable solely out of particular revenues or other moneys as may be designated in the proceedings of the authority under which the bonds shall be authorized to be issued, subject as to priority only to any agreements with the holders of outstanding bonds pledging any particular property, revenues or moneys. The authority may also enter into loan agreements, lines of credit and other security agreements and obtain for or on its behalf letters of credit, insurance, guarantees or other credit enhancements to the extent now or hereafter available, in each case for securing its bonds or to provide direct payment of any costs which the authority is authorized to pay.

4. Bonds shall be authorized by resolution of the authority, be in such denominations and bear such date or dates and mature at such time or times, as such resolution may provide, provided that bonds and renewals thereof shall mature within forty years from the date of original issuance of any such bonds.

Bonds shall be subject to such terms of redemption, bear interest at such rate or rates, be payable at such times, be in such form, either coupon or registered, carry such registration privileges, be executed in such manner, be payable in such medium of payment at such place or places, and be subject to such terms and conditions as such resolution may provide.

Notwithstanding any other provision of law, the bonds of the authority issued pursuant to this section shall be sold to the bidder offering the lowest true interest cost, taking into consideration any premium or discount not less than four nor more than fifteen days, Sundays excepted, after a notice of such sale has been published at least once in a newspaper of general circulation in the area served by the authority, which shall state the terms of the sale. The terms of the sale may not change unless notice of such change is published in such newspaper at least one day prior to the date of the sale as set forth in the original notice of sale. Advertisements shall contain a provision to the effect that the authority, in its discretion, may reject any or all bids made in pursuance of such advertisements, and in the event of such rejection, the authority is authorized to negotiate a private or public sale or readvertise for bids in the form and manner above described as many times as, in its judgment, may be necessary to effect a satisfactory sale.

Notwithstanding the provisions of the preceding paragraph, whenever in the judgment of the authority the interests of the authority will be served thereby, the members of the authority, on the written recommendation of the chairperson, may authorize the sale of such bonds at private or public sale on a negotiated basis or on either a competitive or negotiated basis. The authority shall set guidelines governing the terms and conditions of any such private or public sales.

The private or public bond sale guidelines set by the authority shall include, but not be limited to a requirement that where the interests of the authority will be served by a private or public sale of bonds, the authority shall select underwriters for private or public bond sales conducted pursuant to a request for proposal process undertaken at least once annually and consideration of proposals from qualified underwriters taking into account, among other things, qualifications of underwriters as to experience, their ability to structure and sell authority bond issues, anticipated costs to the authority, the prior experience of the authority with the firm, if any, the capitalization of such firms, participation of qualified minority and women-owned business enterprise firms in such private or public sales of bonds of the authority and the experience and ability of firms under consideration to work with minority and women-owned business enterprises so as to promote and assist participation by such enterprises.

The authority shall have the power from time to time to amend such private bond sale guidelines in accordance with the provisions of this subdivision.

No private or public bond sale on a negotiated basis shall be conducted by the authority without prior approval of the comptroller.

The authority shall annually prepare and approve a bond sale report which shall include the private or public bond sale guidelines as specified in this subdivision, amendments to such guidelines since the last private or public bond sale report, an explanation of the bond sale guidelines and amendments, and the results of any sale of bonds conducted during the fiscal year. Such bond sale report may be a part of any other annual report that the authority is required to make.

The authority shall annually submit its bond sale report to the comptroller and copies thereof to the senate finance committee and the assembly ways and means committee.

The authority shall make available to the public copies of its bond sale report upon reasonable request therefor.

Nothing contained in this subdivision shall be deemed to alter, affect the validity of, modify the terms of or impair any contract or agreement made or entered into in violation of, or without compliance with, the provisions of this subdivision.

5. Any resolution or resolutions authorizing bonds or any issue of bonds may contain provisions which may be a part of the contract with the holders of the bonds thereby authorized as to:

- (a) pledging all or any part of the revenues, other moneys or property of the authority to secure the payment of the bonds, or any costs of issuance thereof, including but not limited to any contracts, earnings or proceeds of any grant to the authority received from any private or public source subject to such agreements with bondholders as may then exist;
- (b) the setting aside of reserves and the creation of sinking funds and the regulation and disposition thereof;
- (c) limitations on the purpose to which the proceeds from the sale of bonds may be applied;
- (d) the rates, rents, fees and other charges to be fixed and collected by the authority and the amount to be raised in each year thereby and the use and disposition of revenues;
- (e) limitations on the right of the authority to restrict and regulate the use of the project or part thereof in connection with which bonds are issued;
- (f) limitations on the issuance of additional bonds, the terms upon which additional bonds may be issued and secured and the refunding of outstanding or other bonds;
- (g) the procedure, if any, by which the terms of any contract with bondholders may be amended or abrogated, the amount of bonds the holders of which must consent thereto, and the manner in which such consent may be given;
- (h) the creation of special funds into which any revenues or moneys may be deposited;
- (i) the terms and provisions of any trust, mortgage, deed or indenture securing the bonds under which the bonds may be issued;
- (j) vesting in a trustee or trustees such properties, rights, powers and duties in trust as the authority may determine which may include any or all of the rights, powers and duties of the trustees appointed by the bondholders pursuant to this title and limiting or abrogating the rights of the bondholders to appoint a trustee under such section or limiting the rights, duties and powers of such trustee;
- (k) defining the acts or omissions to act which may constitute a default in the obligations and duties of the authority to the bondholders and providing for the rights and remedies of the bondholders in the event of such default, including as a matter of right the appointment of a receiver, provided, however, that such rights and remedies shall not be inconsistent with the general laws of the state and other provisions of this title;
- (l) limitations on the power of the authority to sell or otherwise dispose of any project or any part thereof;
- (m) limitations on the amount of revenues and other moneys to be expended for operating, administrative or other expenses of the authority;
- (n) the payment of the proceeds of bonds, revenues and other moneys to a trustee or other depository, and for the method of disbursement thereof with such safeguards and restrictions as the authority may determine; and
- (o) any other matters of like or different character which in any way affect the security or protection of the bonds or the rights and remedies of bondholders.

6. In addition to the powers herein conferred upon the authority to secure its bonds, the authority shall have power in connection with the issuance of bonds to adopt resolutions and enter into such trust indentures, agreements or other instruments as the authority may deem necessary, convenient or desirable concerning the use or disposition of its revenues or other moneys or property, including the mortgaging of any property and the entrusting, pledging or creation of any other security interest in any such revenues, moneys or property and the doing of any act, including refraining from doing any act which the authority would have the right to do in the absence of such resolutions, trust indentures, agreements or other instruments. The authority shall have power to enter into amendments of any such resolutions, trust indentures, agreements or other instruments. The provisions of any such resolutions, trust

indentures, agreements or other instruments may be made a part of the contract with the holders of bonds of the authority.

7. Any provision of the uniform commercial code to the contrary notwithstanding, any pledge of or other security interest in revenues, moneys, accounts, contract rights, general intangibles or other personal property made or created by the authority shall be valid, binding and perfected from the time when such pledge is made or other security interest attaches without any physical delivery of the collateral or further act, and the lien of any such pledge or other security interest shall be valid, binding and perfected against all parties having claims of any kind in tort, contract or otherwise against the authority irrespective of whether or not such parties have notice thereof. No instrument by which such a pledge or security interest is created nor any financing statement need be recorded or filed.

8. Whether or not the bonds are of such form and character as to be negotiable instruments under the terms of the uniform commercial code, the bonds are hereby made negotiable instruments within the meaning of and for all the purposes of the uniform commercial code, subject only to the provisions of the bonds for registration.

9. Neither the members of the authority nor any person executing its bonds shall be liable personally on its bonds or be subject to any personal liability or accountability by reason of the issuance thereof.

10. Subject to such agreements with bondholders as may then exist, the authority shall have power out of any funds available therefor to purchase bonds of the authority, which shall thereupon be cancelled, at a price not exceeding (a) if the bonds are then redeemable, the redemption price then applicable plus accrued interest to the next interest payment date, or (b) if the bonds are not then redeemable, the redemption price applicable on the first date after such purchase upon which the bonds become subject to redemption plus accrued interest to the next interest payment date. Bonds so purchased shall thereupon be cancelled.

In the case of industrial projects, whenever the authority determines that trade secrets or other confidential information about the prospective project occupant's business operations, products, processes or designs would be revealed by public bidding, the requirements of section one hundred thirty-five of the state finance law with respect to public bidding may be waived. In such event, separate specifications shall be prepared for, and separate and independent contracts shall be entered into, for the following three subdivisions of work to be performed: (a) plumbing and gas fitting; (b) steam heating, hot water heating, ventilating and air conditioning apparatus; and (c) electric wiring and standard illuminating fixtures. The authority may, in its discretion, assign contracts for supervision and coordination to the successful bidder for any subdivision of work for which the authority receives bids. The authority shall not award any construction contract except to the lowest bidder who, in its opinion, is qualified to perform the work required and who is responsible and reliable. The authority may, however, reject any or all bids or waive any informality in a bid if it believes that the public interest will be promoted thereby. The authority may reject any bid if, in its judgment, the business and technical organization, plant, resources, financial standing, or experience of the bidder justifies such rejection in view of the work to be performed.
