

Augmentative/ Alternative Communication

Using Manual Boards
and
Picture Communication
Symbols to Improve
Expressive
Communication

Presented by

Cathy Albin M.S., Lic/CCC-SLP
and
Veronica Massong M.S., Lic/CCC-SLP

Friday,
January 11, 2013
2:30-4:30

As a participant in our training, Speech-Language Pathologists will achieve a better understanding of the process for selecting and setting up no-tech augmentative/alternative communication systems using manual boards and picture communication symbols. Discussion of grid size, symbol selection, vocabulary selection and layout, storage and organization strategies will be relevant to the level and abilities of all types of clients.

Learning Objectives

- ◆ Discuss the positive effects of introducing an AAC systems
- ◆ Identify possible candidates for AAC
- ◆ Consider factors when selecting /setting up no-tech AAC systems
- ◆ Describe the considerations for planning no-tech AAC displays and selecting symbol sets
- ◆ Select target activities and select and lay out vocabulary for the AAC user to communicate a variety of intents
- ◆ Identify the first four phases of PECS and explain the importance of the sequence of steps
- ◆ Discuss rubric for setting up communication books to allow for effective communication
- ◆ Identify characteristics of effective communication partners
- ◆ Participate in hands-on activities of choosing systems and vocabulary and layout of vocabulary to facilitate a variety of communication intents
