

**FAMILY SUPPORT NAVIGATORS- SUBSTANCE USE DISORDER SYSTEM
REQUEST FOR PROPOSALS**

January 9, 2017

INTRODUCTION

New York State Office for Alcoholism and Substance Abuse Services (OASAS) communicated the availability of funding in response to their commitment to combating heroin and prescription drug abuse. Funding will make available Family Support Navigators, who will assist residents and their families with gaining an increased understanding of the progression of addiction and how to navigate insurance and treatment systems. The term family is utilized frequently throughout this document. For the purpose of this request for proposals, the term family refers to persons or group of people an individual sees as significant in their life. It may include none, all, or some members of the individual's family of origin.

The Monroe County Office of Mental Health (MCOMH) is soliciting information from organizations interested in operating a Family Support Navigators Team. The Family Support Navigators Team will be dedicated to serving families and individuals impacted by substance use disorders within Monroe County.

Annual funding amount for the operation of the Family Support Navigators Team is \$100,000. This funding allocation is contingent on the Monroe County Office of Mental Health and the selected provider partner being awarded through the OASAS RFP process.

GOALS / DEFINITION OF THE SERVICE

Substance use disorders impact both individuals utilizing substances and their family members. An individual and family's understanding of substance use, the progression of substance use, and options available for substance use disorder treatment can positively or negatively influence a substance user's experience of addiction and recovery.

The primary focus of the Family Support Navigators Team is to partner and engage with families and individuals impacted by substance use disorders, providing both education on the progression of addiction, how to access the service delivery system, what to expect when accessing treatment services, and fostering linkages to services. The Family Support Navigators will aid in reducing barriers to services and increase the families' abilities to pursue needed services. The Family Support Navigators Team will be an innovative and flexible service delivery model and will not be certified by the New York State Office for Alcoholism and Substance Abuse Services.

POPULATION OF FOCUS

The identified population of focus for the Family Support Navigators Team for is as follows:

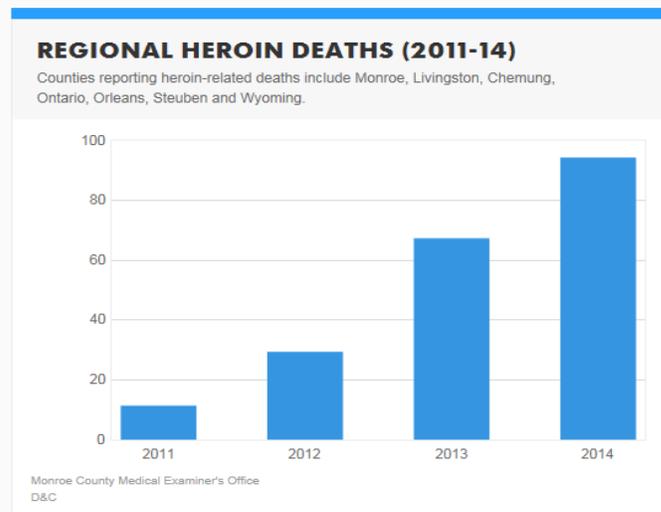

- I. Individuals with substance use issues; AND
- II. Family members impacted by those with substance use issues, in need of assistance navigating barriers and connection to services.

According to NIH Medline Plus magazine (National Institute of Health), addiction affects about 23.2 million Americans — of whom only about 10 percent are receiving the treatment they need. One of the roles of the navigators throughout the state is to connect those who are not receiving treatment and/or recovery services to support they may need and want.

Across the Country, heroin and prescription opioid use, abuse, and opiate-related overdoses have risen significantly, requiring communities to identify additional resources and processes to support individuals and families impacted by opioid use and abuse. According to the American Society of Addiction Medicine (ASAM), drug overdose is the leading cause of accidental death in the US, with 47,055 lethal drug overdoses in 2014. From 1999 to 2008, overdose death rates, sales and substance use disorder treatment admissions related to prescription pain relievers increased in parallel. The overdose death rate in 2008 was nearly four times the 1999 rate; sales of prescription pain relievers in 2010 were four times those in 1999; and the substance use disorder treatment admission rate in 2009 was six times the 1999 rate. Opioid addiction is driving these changes.

Combating heroin and prescription drug abuse requires an understanding of the progression of the addiction. According to the ASAM Opioid Addiction 2016 Facts & Figures, four in five new heroin users started out misusing prescription painkillers. According to a 2014 survey of people in treatment for opioid addiction, 94% of respondents stated they chose to use heroin because prescription opioids were “far more expensive and harder to obtain”.

Within the region, the number of heroin related overdose deaths has significantly increased, with a vast majority of these deaths being residents of Monroe County.

COMPONENTS OF THE SERVICE

The primary goal of the Family Support Navigators Team is to serve as a resource to individuals and families impacted by substance use disorders. The Family Support Navigators team will demonstrate content expertise in:

- Ability to engage and partner with individuals whom are actively using heroin, opiates, and/or other substances
- Ability to engage and partner with family members of individuals actively using heroin, opiates, and/or other substances
- Knowledge of substance use disorder, the progression of addiction and the impact addiction has on families
- The existing array of treatment services available within Monroe County
- How to access treatment services available within Monroe County, including understanding of role of insurance companies and Managed Care Organizations in accessing services
- Existing array and availability of Medication-Assisted Treatment options available within Monroe County
- The existing & emerging array of substance use disorder supportive and recovery oriented services within Monroe County

- Knowledge of the culture of addicted families and their diversity of need

An important component of the Family Support Navigator Team's role is to be readily available to individuals and families, ensuring the appropriate services are available at the most critical time, when individuals are requesting them.

Family Support Navigators will be trained by MCOMH in evidence-based, best practices approaches, including Motivational Interviewing (MI) and trauma informed service delivery. Trauma and toxic stress are often at the center of an individual's school/work problems, mental health challenges, substance use, physical health issues and/or juvenile justice/criminal involvement. This means, whether or not it is fully recognized, all providers are working with survivors of trauma. A system or organization that is trauma informed has at its center the core principles of safety, trustworthiness, choice, collaboration and empowerment and understands that these principles need to be present for both the recipient of services as well as the staff. MI is a style of person-centered counseling developed to facilitate change in health-related behaviors that is being used across an increasingly broad range of healthcare services. MCOMH will provide initial training in these service delivery models, as well as ongoing coaching and mentoring for the implementation of services utilizing trauma informed and MI approaches.

The Family Support Navigators Team will be responsible for developing and implementing a media campaign (a coordinated series of steps that can include promotion of the service via different mediums) to ensure community stakeholders are aware of the services made available via the Family Support Navigators Team's role.

The Family Support Navigators Team will be expected to have the ability to serve the region's needs and should demonstrate how they will do so. Implementation and operation of the Family Navigator Support Team will require ongoing collaboration with providers of clinical and supportive services (e.g., OASAS-certified programs, OMH Licensed programs, Recovery Oriented Programs, etc.) as well as various stakeholder groups throughout the Monroe County community. Ability to collaborate with various stakeholder groups is essential to the operation of the Family Navigator Support Team. In addition, the Family Support Navigators Team will share lessons learned regarding the needs of families and individuals impacted by substance use disorders within Monroe County with various stakeholder groups committed to combating heroin and prescription drug abuse within the local community.

DEMONSTRATING VALUE

The organization awarded the Family Support Navigators Team will collect information to demonstrate effectiveness in implementing the core components of the service delivery model.

This data will be submitted to MCOMH throughout the duration of the program funding. Data collected will be grouped into the following categories:

Media Campaign – Developed plan and implementation steps

- The awarded organization will develop a media campaign plan to ensure various community stakeholders are aware of the Family Support Navigator service. This plan will include, but is not limited to, a list of identified stakeholders and steps associated with educating various stakeholders. This plan will include both steps and timelines for implementing a media campaign.

Implementation of Service Delivery Utilizing Trauma Informed and Motivational Interviewing Philosophies

- The awarded organization will implement the Family Navigator Support Team with fidelity to trauma informed care and MI models of care. MCOMH will provide training and coaching to the Family Navigator Support Team to ensure programs are implemented with these philosophies. Adherence to these models will be supported and monitored via training and coaching sessions to enhance the competency of Family Support Team Navigator staff to engage with individuals and families within the tenets of these models.

Individuals Served/Perceptions of Care

- The awarded organization will share utilization information regarding individuals and families served within the program.
- The awarded organization will seek feedback from individuals and families served within the program regarding their experience of care.

Sustainability Plan

- It is important to note that in the future, Family Support Navigator services are anticipated to be a billable service within transformational initiatives impacting the behavioral health environment. Opportunities to bill for the Family Support Navigator service exist in the Medicaid arena (potentially under the New York State Home and Community Based Services (HCBS) 1915i service lines and/or OASAS Clinic to Rehab provision) and within commercial insurance area by demonstrating the value of the service delivery model. Respondents to this request for proposals must communicate their organization's plan to position itself to be prepared to accept payment (when appropriate) for the Family Support Navigators Team in the future.

**REQUEST FOR PROPOSALS
APPLICATION NARRATIVE AND BUDGET**

Agencies interested in responding to this solicitation are to submit a proposal narrative to MCOMH no later than **February 8st, 2017**. The proposal is required to be submitted electronically to the following email address:
mentalhealth@monroecounty.gov

Questions related to any aspect of this RFP must be submitted via e-mail to mentalhealth@monroecounty.gov no later than close of business on **Wednesday, January 18th, 2017**.

To reiterate, this funding allocation is contingent on the Monroe County Office of Mental Health and the selected provider partner being awarded through the OASAS RFP process.

When submitting a question to this email address, please include "OASAS Family Support Navigator RFP Questions" in the email subject line. All questions and the responses to these questions will be posted on the MCOMH Procurement Opportunities webpage (<http://www2.monroecounty.gov/mh-rfp>) by **Wednesday, January 25th, 2017**. Only questions submitted through this e-mail process and received by the deadline **Wednesday, January 18th, 2017** will be responded to.

APPLICATION PROPOSAL & NARRATIVE

The Application Proposal should be no more than **10** pages, including the cover page. Application Budget information should be included as a separate excel file.

Proposals should be written utilizing the following font- "Calibri", "size 12", and margins should be no smaller than .5". The proposal should include the following:

Proposal Cover Page: The cover page includes the following general information:

- Agency name and address
- Division/department under which the Family Support Navigators Team will operate
- Name, phone number and e-mail for the Division/department contact person
- Name, title and signature of the individual authorizing the submission of the proposal.

The Application Narrative should address each of the following areas:

- I. Agency Experience Serving Population of Focus:
 - a. Describe your organization's experience in providing services to individuals whom are actively using heroin, opiates, and/or other substances. Describe your organization's experience in providing services to family members of individuals actively using heroin, opiates, and/or other substances.
 - b. Describe your organization's ability to implement an innovative and flexible service. Include a description of how your organization plans to assess and ensure the Family Support Navigators Team is meeting the needs of the population of focus. Include any provisions needed by your organization to effectively implement and operate the Family Support Navigators Team.
- II. Family Support Navigators Team Components:
 - a. Substance Use Disorder Content Knowledge
 - i. Describe your organization's working knowledge, or plan to obtain working knowledge, regarding the service core components referenced on page three of the request for proposals. This includes the progression of addiction, the array of substance use disorder treatment and recovery options within Monroe County and how to access them, and the array of medication assisted treatment programs within Monroe County.

- b. Engagement and Partnership
 - i. Describe your organization’s working knowledge, or plan to obtain working knowledge, regarding engaging and partnering with individuals whom are actively using heroin, opiates, and other substances and their families.
 - ii. Describe your organization’s existing knowledge regarding evidence-based, best practices approaches, including MI and trauma informed service delivery. Describe any additional practices that will be essential to successfully implement the Family Support Navigators Team.
- c. Ability to Serve the Region
 - i. Please describe the organization’s ability and intent, if any, to service individuals and families outside of Monroe County in the overall greater region. If the organization intends to serve individuals outside of Monroe County, please be sure to provide separate estimates of anticipated numbers served both within and outside of the county and account for these services in all operational and budget information.
- d. Staffing Proposal
 - i. Describe your organization’s plan for staffing the Family Support Navigators Team, including qualifications and supervision of personnel that would be part of the team.
 - ii. Describe the staffing pattern and hours of operation of the team and how these hours will effectively meet the needs of the population of focus.
 - iii. Describe how you will recruit and retain a sufficient number of diverse staff to allow for matching staff with the population served.

III. Demonstrating Value

- a. Media Campaign
 - i. Describe your organization’s preliminary plan for ensuring various community stakeholders are aware of the Family Support Navigator service.
- b. Implementation of Service Delivery Utilizing Trauma Informed and Motivational Interviewing Philosophies
 - i. Describe your organization’s needs regarding the ability to implement the Family Support Navigators Team with fidelity to trauma informed care and MI models of care.
 - ii. Describe your organization’s plan for ensuring information obtained via MCOMH-sponsored training opportunities are implemented within the Family Support Navigators Team’s operations over time.
- c. Individuals Served/Perceptions of Care Survey
 - i. Describe how your organization would collect and store information regarding the individuals served by the Family Support Navigators Team. Include details regarding what information would be collected.
 - ii. Describe how the Family Support Navigators Team will solicit information from individuals and families regarding their experience of care from the team. Include what elements will be included within the perception of care survey.
 - iii. Describe how your organization will define the value of the Family Support Navigators Team and what additional data will be collected to demonstrate this value.
- d. Sustainability Plan
 - i. Describe your organization’s plan to position itself to be prepared to accept payment (when appropriate) for the Family Support Navigators Team in the future.

IV. Cultural and Linguistic Competence:

- a. Describe how you will ensure that services are culturally and linguistically competent, including how services will be structured to ensure such competence.

- V. Family and Consumer Voice:
- a. Describe how your organization incorporates family and consumer voice into all aspects of the organization, including the following:
 - i. Are family members and/or consumers represented on the Organization Board?
 - ii. Does your organization and/or program have Family and/or Advisory Groups? To what extent do consumers participate in those?
- VI. Family Support Navigators Team Implementation Timeframe
- a. Describe your organization’s anticipated timeframe associated with the implementation of the Family Support Navigators Team. It is anticipated that notification of the Team award will be made by Tuesday, February 21, 2017. Timeframe should delineate the months during which implementation activities are underway and the anticipated month that Team will be operational. Utilization of a Gantt chart to delineate activities and timeframes is preferred.

Please remember to attach a cover page to the Application.

APPLICATION BUDGET

Application Budget should be included with the application narrative as a separate excel file.

Annual funding amount for the operation of the Family Support Navigators Team totals \$100,000.

Family Support Navigators Team:

Provide Expense / Revenue Detail similar to the line items of the DMH-2 Schedule of the Consolidated Fiscal Report (CFR), for the time periods below:

2017 Calendar Year - Projection

2018 Annualized - Projection

Please also provide us with the following for **each** time period:

Breakdown of Direct Care and Non-Direct Care FTE's by position type (including estimated salary and FTE amounts)
 Number of individuals served

SELECTION PROCESS

Proposals received in response to this Request for Proposals by the due date of **February 8th, 2017** will be reviewed by a team established by MCOMH.

In addition to overall clarity and general comprehensiveness, proposals will be scored based upon the following criteria:

<u>Criteria</u>	<u>Associated Scoring</u>
I. Agency Experience Serving Population of Focus	10
II. Family Support Navigators Team Components	40
a. Substance Use Disorder Content Knowledge	15
b. Engagement and Partnership	10
c. Ability to serve the region	5
d. Staffing Proposal	10
III. Demonstrating Value	20
a. Media Campaign	5
