Approval of the Minutes from September 28, 2011

A motion was made to approve by Chairman Iacovangelo and seconded by Member Johnson. The motion passed 2 -0.

Audit Entrance Presentation by Bonadio & Co., LLP

Treasurer Adair introduced Randy Shepard of The Bonadio Group. Mr. Shepard presented to the Audit Committee members the external audit approach for the Authority that is required annually. Mr. Shepard reported that preliminary audit work was completed in early December 2011. The Year-End audit work started Monday, February 13th. Draft financial statements will be made available to the Audit Committee at the scheduled March meeting in order for the Authority to meet its deadline. The Audit consists of four main scopes of services: audit of financial statements, schedule of passenger facility charges cash receipts and disbursements, investment compliance report and debt compliance report. Four separate reports will be issued to the Audit Committee for all areas. Mr. Shepard reviewed and defined tolerable misstatement, test scope and adjustment scope. Mr. Shepard noted that historically there have been very few if any adjustments relating to the Airport Authority. Considerations regarding the external audit process were presented to the committee. Mr. Shepard also pointed out that new GASB exist and may or may not affect the Authority. The timetable for the external audit was presented as well as the client service team contact information for committee members.

Chairman Iacovangelo asked questions concerning whether the work on this account is still subject to peer review. Mr. Shepard responded yes that each individual engagement is reviewed by a second partner for each of the four individual reports. Treasurer Adair noted that Bonadio and other national firms have added quality assurance partners internally so that accounts are double checked by a second partner. An outside firm comes in and audits Bonadio to make sure they are in accordance with current requirements this is known as a peer review. Treasurer Adair added that State law indicates all auditing firms are subject to peer review going forward and that the industry is making a concerted effort to make sure there are normalcy standards and objective reviews.

Member Johnson asked questions concerning the GASB changes and if they affect the Authority. Mr. Shepard answered that the GASB changes take effect January 1, 2012.

Member Tucciarello asked questions concerning the number of years the Authority can have the same engagement partner. Mr. Shepard noted that this was his last year as the Authority engagement partner ending December 31, 2012 and that the position is rotated every five years.

Internal Audit 2012 Audit Plan - StoneBridge Business Partners

Treasurer Adair reported that an RFP was issued last spring/summer to obtain an internal auditor for the Authority. The contract was awarded to StoneBridge Business Partners. Treasurer Adair and Assistant Treasurer Veltre had previously met with their representatives Jim Marasco and Tom Niles. Mr. Marasco presented to the committee the internal audit plan for the Authority.

Mr. Marasco provided the committee with the background of his company and the approach that would be taken. Assistant Treasurer Veltre and Dave Haas had provided an overview of airport operations, budgets and contracts to StoneBridge, prior to today's meeting. Mr. Marasco presented that auditing of revenue contracts for parking, vehicle rental and food concessions will take place first. These contracts cover half of the non-airline revenue generated at the Airport.

Treasurer Adair noted that StoneBridge Business Partners experience is extensive. Treasurer Adair has the opportunity to meet with Southwest Airlines executives the week prior and keeping airline costs at the present level or below is critical for airlines and maximizing non-airline revenue is the way to do that. Treasurer Adair added that as the internal auditing process progresses ad hoc engagements will present themselves for the committee to consider should they choose. Mr. Marasco noted that draft reports for the committee will be presented in easy to read/follow formats to show areas where opportunities for recovery may exist.

Member Johnson asked questions concerning StoneBridge being required to sign non-disclosure statements and noted that Rotenberg is an auditor for one of his business accounts. Treasurer Adair responded that redaction of information for internal information would exist and clarified that procedural recommendations would be presented to the audit committee by StoneBridge but that anything requiring a full vote would go to the board.

Member Tucciarello asked if StoneBridge Business Partners was headquartered here in Rochester and Mr. Marasco answered yes. Conversation ensued; Treasurer Adair noted that StoneBridge is working on the audit committee's behalf and that concerns should be brought to their attention. Chairman Iacovangelo supported Treasurer Adair's statement noting the compliance focus of StoneBridge's auditing plan. Treasurer Adair added that internal auditing is "quasi new" and that as StoneBridge becomes more knowledgeable on Airport issues it will help to identify areas financially that can be brought to the committee. Assistant Treasurer Veltre added that the internal audit program is that of the audit committee and whatever they feel is most important at the time can be explored.

The audit committee approved the plan as presented by Stonebridge.

Directors Litigation Report

Acting Director Veltre stated that the lawsuit brought upon by concessionaire Taplo d/b/a Flower City Café is in the discovery phase. Monday, February 13th, a concession equipment firm sent by Banco Popular North America visited the Airport to assess the value of the 'moveable trade fixtures' that were named as collateral on the small business loan. Banco Popular will then determine if they will auction the equipment or supply the County with a release.

Member Johnson asked if the equipment is an asset of the County. Acting Director Veltre noted that it would only be a County asset if the County was supplied with a release from the bank.

Chairman Iacovangelo confirmed the location of the vacant space. Acting Director Veltre noted that the Airport will be issuing an RFP on Friday, February 17th, to fill that location with a food/beverage concession.

Member Johnson asked if anything new had transpired regarding Kodak Aviation. Acting Director Veltre responded that Kodak is discontinuing their aviation division and that Airport had not been contacted yet by Kodak regarding the land lease contract. Chairman Iacovangelo noted that if the hangar and office buildings became the Authority's that it could be bid for other tenants. Member Tucciarello asked about the useful life and condition of the hangar and office buildings at Kodak Aviation. Chairman Iacovangelo stated that they were well maintained and in good condition. Acting Director Veltre informed the committee that if we are notified of any change to the current status of Kodak Aviation that we would let the board know.

Audit Committee Report

Presented by Member Iacovangelo.

Treasurer's Report

Treasurer Adair presented the Travel & Business Expense Report and the Credit Card statement with explanations for the period of December 2011 through January 2012. The travel and business expense report had three (3) items totaling approximately \$2,100.00. The three (3) items comprised of a credit memo and two (2) credit card usages. The report was submitted in a timely fashion, in accordance with board policies and approved by the Treasurer. A motion to accept the travel and business expenses report was moved by Member Lightfoot and seconded by Member Keith. The motion passed unanimously 7 - 0. Treasurer Adair reported that the Credit Card in the name of the previous Administrative Director was suspended. A temporary card was issued to the Acting Director but was determined to be not necessary and was subsequently closed - there was no activity on that card. The Credit Card in the name of the County Executive was not used during that time period either. Member Lightfoot asked if the Airport was suffering business-wise in anyway by the Acting Director not being able to travel. Treasurer Adair answered no, that Acting Director Veltre's travel can be covered under the county's travel policy, which in turn would be reimbursed

under the Authority's Operating and Lease agreement, if necessary. Chairman Vazzana asked Member Lightfoot if that answered his question to which Member Lightfoot answered yes. A motion to accept credit card statements was moved by Member Iacovangelo and seconded by Member Keith. The motion passed unanimously 7-0.

Appointment of Vice Chairperson to the Monroe County Airport Authority Board

Chairman Vazzana reported to the board that previous board Vice-Chairperson Nicholas Juskiw resigned at the end of 2011 and is carrying out his commitment to serve on the Golisano Children's Hospital Board. Chairman Vazzana recommended to the board that Member Iacovangelo be named Vice-Chairperson to the Authority to replace Juskiw's role. There was no board opposition to the recommendation and all members voted unanimously 7-0 in favor of appointing Member Iacovangelo to Vice-Chairperson of the board.

Appointment of Chairperson to the Monroe County Airport Authority Governance Committee

Chairman Vazzana reported that also the board needed to appoint a member to the Authority's Governance Committee to replace a vacancy created when previous member Nichols Juskiw resigned at the end of 2011. Chairman Vazzana recommended, if willing, that new board member R. Thomas Flynn replace Juskiw on the Governance Committee. Member Flynn accepted the appointment. Member Lightfoot asked about his previous request to have a listing of current committee assignments sent out. Acting Director Veltre responded that the committee assignments are posted publicly on the Authority website, as had been previously mentioned at the last meeting. There was no board opposition to the recommendation and all members voted unanimously 7-0 in favor of appointing Member Flynn as Chairperson of the Governance Committee.

Amendment of Resolution No. 26 of 2011 to Assign the Lease of United States Postal Service to Westover Car Rental, LLC d/b/a Thrifty Car Rental for Premises located at 1135 Brooks Ave.

Acting Director Veltre presented the amendment. The amendment removes airfield access for the assignee Westover Car Rental, LLC d/b/a Thrifty Car Rental as they do not require airfield access as did the current leaseholder United States Postal Service.. Acting Director Veltre also reported that language was added to the assignment requiring Westover Car Rental, LLC d/b/a/Thrifty Car Rental to seek permission from the Department of Aviation, as well as any building permits required, should any changes to the structure or use be sought. Chairman Vazzana asked if the lease was a land lease. Acting Director Veltre answered yes, that the United States Postal Service constructed the building and the agreement is between Westover Car Rental, LLC d/b/a Thrifty Car Rental and the United States Postal Service to lease the building. Veltre added that there is no change to the current land lease amount; it allows Authority to make changes to the land lease amount every three (3) years subject to an independent appraisal. Chairman Vazzana asked questions pertaining to land lease details. Acting Director Veltre reported that the lease ends in 2016, that the assignment refers to the initial term of the agreement with extension options, the extension is not mutual consent. The USPS is current on their rent payments. Member Tucciarello asked if the assignee would be physically cut off to airfield. Acting Director Veltre reported yes, by a fence. A motion to approve the amendment was moved by Member Keith and seconded by Member Iacovangelo. The motion passed unanimously 7-0.

Annual Ethics and Policy Training Requirement for Members and Officers of the MCAA

Assistant Secretary Granville reported that all board members and officers of the Authority will be required to complete an annual ethics and policy training. Assistant Secretary Granville would like to hold the training before or after the March 28th, 2012 regularly scheduled board meeting. The training will last ½ hour – 45 minutes in duration and once a time has been agreed upon by all board members a notice will be sent to all board members to confirm.

Annual Statement of Financial Disclosure

Assistant Secretary Granville reported that all board members are required by law to provide an annual statement of financial disclosure. Each board member has received two (2) forms to complete, one for the board member and another for the board member's significant other. Annual statement of financial disclosure forms must be returned to Assistant Secretary Granville by April 16th, 2012. Member Flynn is exempt from having to complete the annual statement as it pertains to last year, 2011, during which Member Flynn was not yet a board member. The form is the same as last year. If anyone has questions, please contact Assistant Secretary Granville.

Traffic Report

Mr. Haas reported that the traffic report represents traffic for the twelve (12) months of 2011. January 2012 is not included in the traffic report as the information is not yet available. Mr. Haas reported that enplanements for November and December 2011 were 97,839 and 92,275 respectively. Total enplanements for 2011 were 1,209,746 million a decrease of 4.6 % compared to total enplanements for 2010 at 1,268,792 million. Mr. Haas reported that total passenger boardings for 2011 were 2,409,454 down 4.9% as compared to 2010 total passenger boardings. Mr. Haas noted this decrease is related to the national economic conditions and that as the economic outlook improves, we expect our traffic to improve. Mr. Haas reported that all thruway airports are experiencing some degree of decrease. Nationwide air travel is only up 1.1% over the year previous. Mr. Haas reported that the yearly load factor for 2011 was 79.4% and is the highest load factor the Airport has had in the last 10 years. In terms of passenger share Delta has the highest with 21.14% - up slightly as compared to 2010, followed by United Airlines, AirTran Airways and US Airways. Mr. Haas reported that landing weights for 2011 were down, reflecting the modification of airline activity using smaller planes (20% large aircraft operations vs. 80% regional jet/prop operation), as compared to 2010 (35% large aircraft operation vs. 65% regional jet/prop operation). Scheduled departures are down, reductions in the number of trips however all aircraft operations were 104,433. An increase over 2010 - air taxi and general aviation account for the majority of that increase, 4% of the aircraft operations were military. Member Lightfoot asked if we anticipate with Southwest coming as to how they will fall with the history of enplanements in other places. Mr. Haas reported that we are cautiously optimistic, a Southwest official stated that if people fly Southwest will adjust their flights accordingly. Member Lightfoot as if Southwest was up and running here. Mr. Haas answered that here they are still operating as AirTran Airways. Chairman Vazzana noted that Acting Director Veltre will cover a recent meeting with Southwest in her Director's report.

Directors Report

Acting Director Veltre reported that on Tuesday, January 10th, 2012 new board member orientation was completed by Member Flynn. The orientation included an overview of the airport operations, budget and rates & charges. Assistant Secretary Granville reviewed board policies and an ethics review with Member Flynn. The orientation ended with a tour of the airfield.

Acting Director Veltre noted that last Thursday, February 9th, 2012 - Southwest Airlines Vice-President and Chief Legal and Regulatory Officer Ron Ricks & Vice-President of Government Affairs Karen Judd Lewis visited Rochester and spent a day learning about the business community and quality of life in our area. The airport team planned a great day starting with breakfast with the County Executive and Mayor, George Eastman House tour and presentation by Greater Rochester Enterprise, Wegman's Pittsford store tour hosted by Danny and Colleen Wegman, National Strong Museum of Play tour and presentation by VisitRochester, a meeting with board Chairman Vazzana, Treasurer Adair and Secretary Taylor, AirTran employee and operations meeting and dinner with area business leaders hosted by Constellation Brands giving the business community an opportunity to speak with Southwest Airlines regarding their travel needs. Mr. Ricks and Ms.

Vazzana added that Mr. Ricks and Ms. Judd spent the following day as a guest of Congresswoman Louise Slaughter at a transportation meeting at the University of Rochester. Chairman Vazzana noted first hand that a positive impression was made up on the senior executives from the airline.

Acting Director Veltre reported that the FAA approved the Airports certification manual and emergency plan in accordance with FAA Title 14, part 139. Also reported was that the President signed into law a 63.4 billion dollar FAA reauthorization bill that runs through 2015. This is good news for the Airport as it helps us with our long range planning of capital projects. Part of this reauthorization bill includes the funds for the FAA to continue efforts to establish a new navigational system for commercial aircraft utilizing GPS technology known as NextGen.

Acting Director Veltre reported that a referral has gone to the County Legislature for design of a \$1.5 million North Ramp rehabilitation capital project for ramp upgrades and pavement replacement.

Acting Director Veltre reported that the Airport will be issuing an RFP for food/beverage concession on Friday, February 17th, 2012 for the space left vacant by Flower City Café.

Lastly, Acting Director Veltre reported that Assistant Director Andy Moore and she met with the Vice-President of Corporate Real Estate from JetBlue as he was in town meeting with his airline staff here locally. Routes were discussed as well as business travel and the Airport is hopeful JetBlue is looking to add non-stop service between here and Boston.

Other Business

Chairman Vazzana proposed sending a letter on behalf of the board to Mapco Parking, the Airport parking contractor, acknowledging and congratulating them on the article featured in the Democrat and Chronicle highlighting the management style of Mapco Parking and how they have implemented communication processes to better serve their employees in the work place.

Acting Director Veltre proposed moving the March meeting forward one week, to March 28, 2012 to help us in the year-end process of finalizing financial statements etc. for board approval in accordance with the Public Authorities and ABO Deadlines. Conversation ensued and it was determined that the date will in fact be changed to March 28th, 2012 and that the governance committee meeting will take place before that.

Member Flynn asked questions pertaining to the temporary seasonal cancellation of the AirTran Airways Ft. Myers service as asked to him by members of the traveling public. Acting Director Veltre answered that this was a business decision by the airline, that airlines evaluate constantly and move routes to where they will yield the most profits. Chairman Vazzana noted schedule changes to JetBlue -- JFK flights. Member Iacovangelo reiterated that as travel was down per Mr. Haas' report, that as the economy rebounds we should see corresponding travel numbers increase leading to more service. A motion to adjourn was moved by Member Iacovangelo and seconded by Member Tucciarello. The motion passed unanimously 7 - 0.

Meeting was adjourned @ 12:38 AM

The next Board Meeting will be March 28, 2012.

Authorize Monroe County to Grant an Easement to Frontier Telephone of Rochester, Inc. for Property known as 1135 Brooks Avenue at the Greater Rochester International Airport

Assistant Secretary Granville reported to the board that this would authorize an easement for Frontier Telephone of Rochester, Inc. to lay cable to connect the MRC3 building. The motion passed unanimously 4-0.

Directors Report

Director Giardino reported that the Airport was reviewing the airline use/lease agreement process and that ROC had been in touch with counsel with regards to that agreement as it expires at the end of 2012. Director Giardino added that there are functions that are airline specific however management does engage with the airlines, on issues brought to our attention.

Director Giardino referred to an airfield map to show construction that is being planned to construct Taxiway "P" which will be located at the approach end of Runway 28. The Taxiway will allow for FedEx large aircraft to have better access eliminating back taxiing and spin maneuvers by the carrier. It was reported that this Taxiway construction is part of the Airport's Master Plan and construction will begin Summer 2012.

Director Giardino reported that the Airport is working to narrow the scope of work on the ROC Master Plan and staff is targeting items that are the most necessary as well as other options available to explore for improving service, safety, efficiency and ultimately increasing revenue streams which will make the airport more attractive to airlines.

Director Giardino will be attending a meeting regarding the 2013 PGA event and promoting publicity of the Airport as part of this event and also recently held a meeting with the Rochester Red Wings General Manager to explore future advertising opportunities there.

Director Giardino attended a NYAMA Board of Directors meeting. NYAMA is described as a consortium of airports from across New York State that gather and work on aviation and legislative issues as they pertain to airport management. Director Giardino was asked to be a member of the Board of Directors and has accepted that role.

Director Giardino reported that the Rochester Wings event would be taking place at ROC June 8th and 9th, 2012 – the event he noted is positive for the Airport and also offers an opportunity to members of public to have exposure to aviation experiences not normally available.

Director Giardino stated that the 13th Annual Airport 5K benefitting Lifetime Assistance Foundation, Inc. was being held at the Airport on Saturday, June 23rd. Director Giardino reported that the Airport would be having a mandatory Emergency Drill which is self-evaluated on September 15, 2012. Director Giardino, Fire Chief Todd Bane and Operations Manager Tim Woolston recently attended the Westchester Airport Drill. It was reported that a planning meeting is scheduled for June 6, 2012 for our airport partners and volunteers. Member Keith asked what impact the drill would have on the Airports regularly scheduled activity. Director Giardino noted that the drill would have little impact on the Airport's regular activity on drill day. Member Lightfoot asked if City Fire etc. would be part of the drill. Director Giardino noted that inclusion of all participants possible in order to conduct as realistic of a drill as possible would be warranted. Director Giardino noted that ROC plans to meet with City Fire, Gates Fire and Chili Fire. Director Giardino mentioned the upcoming Honor Flight that his staff at ROC supports Honor Flight fully and that Honor Flight Rochester has become a model for other Airports as they build their programs.

Director Giardino reported that the airlines recommend airport management meet with their planners at least once a year to discuss like topics. Director Giardino recently traveled to Phoenix to meet with US Airways Planners, spent time in Phoenix attending the American Association of Airport Executives (AAAE) conference and met with Airport Directors from all over the country. Director Giardino also met with Southwest Airlines planning executives in Dallas and will be meeting with the FAA in Washington DC May 17th, 2012.

Meeting was called to order by the Chairman at 11:03 am.

Approval of the Minutes from August 8, 2012

A motion was made to approve by Chairman Iacovangelo and seconded by Member Tucciarello. The motion passed 2-0.

Financial Reporting

Treasurer Adair introduced the 2013 Authority Budget and the 2013 Renewal & Replacement fund budget. It was reported that the County Airport Operations and Maintenance is projected to be reduced by approximately \$900,000. Treasurer Adair reported that operational expenses were also expected to be reduced for the 2013 budget. Treasurer Adair further reported reductions in utility reports, in glycol treatments from pure waters, and reductions in overall cost controls. In addition, Treasurer Adair reported that the Monroe County Sheriff's K-9 unit received a \$50,000 grant that is being passed to the Airport as a reduction in the chargeback from the Sheriff's department since the K-9's are used here at the Airport.

Treasurer Adair reported the transfer of Renewal and Replacement is projected to be down \$900,000. Treasurer Adair made note to the professional services line – last year this was an increase due to the airline use & lease negotiation. Finally, Treasurer Adair noted that debt service is relatively flat.

Chairman Iacovangelo noted that the information includes major reductions which is positive - on the renewal & replacement budget he said that the savings are now starting to be seen on the investment in the projects that have been going on over the years to improve the facility. Assistant Treasurer Veltre added that the renewal & replacement funds are allocated for the local share of projects that are not funded by AIP money for anticipated projects in 2013.

Member Tucciarello asked how the Airport been able to save money since health care costs are rising? Treasurer Adair noted that through Human Resources we have been able to work with Blue Cross/Blue Shield towards savings in the 2012 budget process. Member Tucciarello asked have we fully refunded the replacement & renewal fund? Assistant Treasurer Veltre reported that in the CIP – the Airport Authority was able to reduce the annual allocation by having the Airport Engineers fine tuning and reducing the overall size of the CIP six-year program.

Assistant Treasurer Veltre - presented the balance sheet showing no significant changes since last report - expenses are about 2.5% lower than August 21, 2011 YTD.

Assistant Treasurer Veltre reported that the Airport had expended approximately 67% of the budget. Depreciation is not a budget item and principle on the bonds is a liability on the budget sheet so it is not listed as an actual expenditure.

Deputy Directors Litigation Report

Deputy Director Veltre stated that there are no updates to our litigation matters.

Traffic Report

Mr. Dave Haas reported traffic statistics through August 2012. Enplanements (passenger boardings) for July and August were 115,190 and 119,662 respectively. Both July and August showed increases over the

same period last year. July was up 0.24% over 2011 and August was up 5.1% over August 2011. These increases helped push ROC's year to date (YTD) enplanements to 823,931 and surpass the 2011 YTD by 0.2%. YTD 2011 January through August enplanements are 822,305.

Mr. Haas also reported that the passenger load factor for the first eight months averaged 76.5%. The July load factor was 81% and the August load factor was 81.2%. The load factor for both July and August of 2011 was approximately 85% each month. Meeting was called to order by the Chairman at 11:04 am.

Approval of the Minutes from September 19, 2012

A motion was made to approve by Chairman Iacovangelo and seconded by Member Tucciarello. The motion passed 2-0.

Audit Entrance Presentation by The Bonadio Group

Ken Pink, Engagement Partner along with Heidi Bresler, Engagement Manager presented the audit entrance scope of services for the 2012 audit engagement to include: audit report, schedule of PFC charges, investment compliance report and debt compliance report. The Auditor will offer their opinion on the financial statements, showing that the Authority is in compliance and consistent with their policies. The report will focus on a selected sampling of audited materials. Mr. Pink noted that The Bonadio Group has close to 30 Public Authorities that they have done work for.

Mr. Pink reported that the Government Accounting Standards Board has issued several new accounting procedures that will be reviewed and followed.

Preliminary work on the audit began last week. Year-end Audit work will happen February 11-22, 2013 with the final financials being presented to the Audit Committee at the March meeting. Treasurer Adair and Assistant-Treasurer Veltre will prepare the draft financial statements. Mr. Pink added that Treasurer Adair and Assistant-Treasurer Veltre always prepare these diligently.

Internal Audit Report

Tom Niles of StoneBridge Business Partners presented two internal audit reports for vendors with concession agreements with the Authority - Patrick Giuliano d/b/a Gusto's and ARA management operator of Mrs. Fields/TCBY/Pretzelmaker. The format of the reports are focused on validating the reported sales and corresponding concession fees and add a little more insight into secondary items.

Gusto's audit period was June 2010 to December 31, 2011. A summary of the audit findings: first, it appears as though Gusto underreported sales by more than 2% in 2010; this underreporting did not affect the concessionaire's payment to the Authority as the required payment would have still remained at the minimum

annual guarantee and second, that the concessionaire does not keep accurate and complete records as required by Article 9 of the concession agreement. Mr. Niles recommended that the Authority may want to consider strengthening contract language for such agreements pertaining to record keeping. The owner did say he planned to implement a point of sale (POS) revenue system and it may be good to review that in the future once that system is in place.

ARA's audit period was May 2010 to December 31, 2011. Main audit findings included the refusal of the concessionaire to provide financial statements – as required by the contract. Delay in supplying the Annual Certified gross sales and delays in monthly payments and paying in a lump sum. The bank statements that were provided and quarterly tax returns allowed StoneBridge to complete their test work. The national franchising requirement of the POS system is positive. The franchisee will be vacating the premises at the end of the year since the franchisor is not seeing the revenue they require; therefore they are not allowing ARA to extend their lease agreement. Director Giardino added that the airport worked with ARA on signage, location and other proposals to encourage and help the concessionaire.

Mr. Niles added that National and Thrifty Car Rental are up next for internal audits.

Financial Reporting

Assistant Treasurer Veltre presented the Trial Balance at October 31, 2012 showing \$27.7 million dollars in cash. On the P&L side, revenues to date continue to be up over the previous fiscal year 3.7%, attributable to increased landing fees/landed weights and the fact that the landing fee is slightly higher than it was in 2011. Terminal rental is up due to an increase in the average terminal rental rate. The car rental concession is down for the year, the MAG for the new contract is lower than it was over the previous contract. Net parking revenue is up for the year. Expenses are down for the year – due a reduction in O&M expenses.

Assistant Treasurer Veltre presented the Budget to Actual at October 31, 2012. Of the 2012 Budget of \$35.0 million- we have expended \$26.6 million.

Directors Litigation Report

Director Giardino stated that there are no updates to our litigation matters. There is one lawsuit that that is moving into the deposition phase – TAPLO Enterprises d/b/a Flower City Café.

Ethics Hotline Report
