INDEPENDENT AUDITORS' REPORT

March 28, 2011

To the Members of
Monroe County Airport Authority:

We have audited the accompanying financial statements of the business-type activities of Monroe County Airport Authority (the Authority), a discretely presented component unit of the County of Monroe, New York, as of and for the years ended December 31, 2010 and 2009, which collectively comprise the Authority's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Authority's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities of the Authority, as of December 31, 2010 and 2009, and the respective changes in financial position and cash flows for the years then ended in conformity with accounting principles generally accepted in the United States.

In accordance with *Government Auditing Standards*, we have also issued our report dated March 28, 2011, on our consideration of the Authority's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

INDEPENDENT AUDITORS' REPORT
(Continued)

Accounting principles generally accepted in the United States require that the management's discussion and analysis on pages 3 through 10 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

**MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED)
DECEMBER 31, 2010 AND 2009
(000's OMITTED)**

The Management's Discussion and Analysis (MD&A) of the Monroe County Airport Authority (the Authority) provides an introduction and overview of the financial statements of the Authority for the years ended December 31, 2010 and 2009. Following this MD&A are the financial statements of the Authority together with the notes thereto, which are essential to a full understanding of the data contained in the financial statements.

OVERVIEW OF THE FINANCIAL STATEMENTS

The financial statements of the Authority are prepared in accordance with accounting principles generally accepted in the United States of America as promulgated by the Governmental Accounting Standards Board (GASB). The financial statements are prepared using the economic resources measurement focus and the accrual basis of accounting, which requires that transactions be recorded when they occur, not when its related cash receipt or disbursement occurs.

The Statements of Net Assets depict the Authority's financial position at December 31, the end of the Authority's fiscal year. The statements present all the financial assets and liabilities of the Authority. Net assets represent the Authority's assets after liabilities are deducted.

The Statements of Revenues, Expenses and Changes in Net Assets report operating revenues and expenses, nonoperating revenues and expenses, capital contributions and the changes in net assets for the year ended December 31st. The change in net assets combined with the previous year's net asset total, reconciles to the net asset total for the reporting period.

The Statements of Cash Flows report cash activities for the year resulting from operating activities, investing activities, and capital and related financing activities. The net result of these activities, added to the beginning of the year cash balance, reconciles to the total cash balance at the end of the year.

SUMMARY OF FINANCIAL HIGHLIGHTS

Net Assets

The Statements of Net Assets depict the Authority's financial position as of a point in time – December 31 – and include all assets and liabilities of the Authority. Net assets represent the residual interest in the Authority's assets after deducting liabilities. The Authority's assets exceeded liabilities by \$17.7 million at December 31, 2010, a \$149 thousand or 0.8% increase from 2009. Restricted net assets are \$9.4 million or 52.9% of total net assets. Restricted net assets represent resources that are available for a specific purpose as imposed by creditors, grantors, contributors, laws or regulations. Unrestricted net assets are \$22.6 million and may be used to meet the Authority's obligations. Unrestricted net assets decreased from the prior year by \$690 thousand or 2.9%.

Assets and Liabilities

Current assets, which consist primarily of cash and cash equivalents totaling \$9.8 million at December 31, 2010, decreased by \$7.0 million over 2009. The primary reason for this decrease was the timing of the Authority's funding for the January 1 scheduled debt payment for which cash was transferred to the trustee prior to December 31st, 2010. In 2009, this amount was transferred to the trustee, a non-current asset, to fund the debt service payments subsequent to year-end, and in 2008 was transferred prior to year end. Accounts receivable has increased by \$348 thousand or approximately 12.1% over 2009 due to the increase in the final invoices to the Airlines. The accounts receivable balance at December 31, 2009 was \$492 thousand or an increase of 20.6% over 2008. Accounts receivable is a component of current assets.

Capital assets and long-term debt are discussed elsewhere in this management's discussion and analysis.

Change in Net Assets

Overall between 2008 and 2010 revenues have consistently exceeded expenses as shown by comparing the Income before Capital Contributions of \$229 thousand in 2010; \$584 thousand in 2009; and \$1.2 million in 2008. The comparative changes in revenues and expenses will be discussed following Table A-2 below.

FINANCIAL ANALYSIS

Operating Revenues

In 2010 operating revenues increased by \$1.2 million or 3.9% over 2009. The increase in operating revenue resulted from the increase in concession revenue of \$618 thousand; an increase in parking commissions of \$353 thousand due in part to an increase in parking rates; and a modest increase in car rental concession revenue of \$262 thousand due to a contractual increase in the minimum annual guarantee. These increases were offset by decreases in revenue for 2010 in landing fees of \$37 thousand and in rental fees of \$19 thousand.

Comparatively in 2009 operating revenues increased by \$207 thousand or 1% over 2008. The increase in operating revenue resulted from the increase in landing fees of \$684 thousand; new revenue for chargeback of the exit lane monitor service of \$455 thousand, and a modest increase in car rental commissions of \$171 thousand. These increases were offset by decreases in revenue for 2009 in parking commissions of \$538 thousand and non-signatory rental fees of \$481 thousand.

The comparison of operating revenue sources is provided below.

	Landing Fees	Rental Fees	Car Rental Commissions	Parking Commissions	Concessions	Fuel Facility
2010	\$ 5,807	\$ 10,790	\$ 4,161	\$ 6,013	\$ 4,420	\$ 225
2009	\$ 5,844	\$ 10,809	\$ 3,899	\$ 5,660	\$ 3,802	\$ 225
2008	\$ 5,160	\$ 11,023	\$ 3,728	\$ 6,198	\$ 3,698	\$ 225

Nonoperating Revenue

The primary source of revenue in this category is interest revenue totaling \$131 thousand in 2010, \$171 thousand in 2009, \$715 thousand in 2008. The decline in interest rates began in 2008; with a decrease in interest revenue of 76.1% in 2009 and 23.4% decrease in 2010.

SUMMARY OF FINANCIAL HIGHLIGHTS (Continued)

FINANCIAL ANALYSIS (Continued)

Operating Expenses

In 2010 operating expenses increased by \$2.4 million or 10.4% when compared to 2009. Operating and maintenance expense paid to the County increased in 2010 by \$1.9 million due to the fact that there was no significant residual equity transfer in 2010 which would have reduced the amount paid to the County. Rent expense paid to the County increased in 2010 by \$416 thousand due to the increase in debt service costs associated with current and prior capital projects at the Airport.

Comparatively, operating expenses increased by \$42 thousand or less than 1% in 2009 over 2008 and was mainly due to the increase in Rent expense of \$432 thousand and a decrease in Operating and Maintenance expense of \$675 thousand.

In addition, for each of the years ended December 31, 2010, 2009 and 2008 the impact of recording depreciation and amortization is \$4.5 million respectively, and is the primary reason for the decreases in capital assets of \$3.4 million (7.1%) in 2010; \$4.1 million (8.0%) in 2009; and \$3.7 million (6.6%) in 2008. In 2010 the net decline in capital assets was slightly less due to the addition of capital assets of \$1.1 million.

As a result of regularly scheduled annual principal payments on the outstanding debt, the debt outstanding at December 31, 2010, 2009 and 2008 decreased by \$5.0 million (5.3%); \$4.8 million (5.7%) in 2009; and \$4.5 million (5.7%) in 2008. This decrease is also reflected in the decrease in the portion of net assets that is invested in capital assets net of related debt.

Nonoperating Expenses

Nonoperating expenses in 2010 include the Authority's local share of capital projects reimbursed to the County of \$1.7 million, a decrease of \$667 thousand (28.1%) from 2009, and a difference of \$466 thousand from 2008. The Authority's local share of 2.5% becomes due to the County when a capital project is completed. Below is a list of the projects completed and the Authority's local share (000's omitted):

	<u>2010</u>	<u>2009</u>	<u>2008</u>

FINANCIAL ANALYSIS (Continued)

CAPITAL ASSETS

Leased

The Authority leases the Airport facilities, except those that were financed through the 1989 bond issuance, from the County. The Authority is required to make annual rental payments to the County equal to the principal and interest due for the year on Airport-related debt issued by the County, both prior and subsequent to the inception of the Authority, net of earnings on related debt service. These rental payments totaled \$2.8 million in 2010, \$2.4 million in 2009, and \$2.0 million in 2008.

Purchases and Retirements

Airport facilities improvements are planned and funded through the County's Capital Improvement Program. In 2010, the Authority invested \$1.1 million and retired \$150 thousand in assets that were fully depreciated. In 2009, the Authority invested \$326 thousand and retired \$286 thousand in assets that were fully depreciated. Year-end total cost was \$124.8 million at December 31, 2010, \$123.8 million at December 31, 2009, and \$123.7 million at December 31, 2008 (See Table A-3).

FINANCIAL ANALYSIS (Continued)

AVIATION FACTORS AFFECTING FINANCIAL STATEMENTS

Enplanement Activity

In 2010 the airlines continued to offset the high fuel prices by using smaller, lighter, and more fuel efficient aircraft. This, as well as other economic factors, resulted in a decrease in both enplanements and deplanements for the year. Enplanement numbers affect both operating revenues and Passenger Facility Charges (PFCs) and are used in the Aviation industry to rank the size of an airport. In 2010 the Greater Rochester International Airport ranked 79th nationally.

<u>Year</u>	<u>Ticketed Passenger Activity</u>		
	<u>Enplanements (Departing)</u>	<u>Deplanements (Arriving)</u>	<u>Total Passengers</u>
2010	1,268,792	1,265,442	2,534,234
2009	1,287,552	1,283,553	2,571,105
2008	1,360,522	1,352,567	2,713,089

Passenger Facility Charge (PFC) Fees

Enplanements affect the amount of PFC fees that are collected from the airlines each year. The more ticketed passengers flying from Rochester, the greater the amount of PFCs collected. During 2010, a total of \$5.3 million in PFC's were collected from airline passengers. Of these collections, the Authority contributed \$5.4 million to the County of Monroe (the County) towards the cost of capital improvements at the Airport, resulting in a Capital Contribution, Net of (\$80) thousand as shown in Table A-2. A description of PFCs is provided in Note 2, Passenger Facility Charges of the financial statements. In 2009, a total of \$5.3 million in PFCs were collected from airline passengers and of those collections, the Authority contributed \$5.3 million to the County towards the cost of capital improvements at the Airport, resulting in a Capital Contribution, Net of (\$21) thousand. In 2008, a total of \$5.4 million in PFCs were collected from airline passengers and interest earned of \$26 thousand in a restricted cash account. Of those collections, the Authority contributed \$7.6 million to the County towards the cost of capital improvements at the Airport, resulting in a Capital Contribution, Net of (\$2.2) million.

2005 Airline-Airport Use and Lease Agreement

Revenues from airlines are determined by annual calculations in accordance with the Signatory Airline Use and Lease Agreement, effective January 1, 2005. Therefore, the Landing Fees which are entirely paid by airlines and the Rentals (Table A-2) which are predominately paid by airlines are regulated by the annual Rates and Charges. At year-end, actual payments are reconciled to actual costs to determine the final amounts owed by the airlines. See Note 2 of the financial statements, Revenues and Expenses.

2011 BUDGET

The Authority's 2011 budget has been approved and contains no significant changes from the operational results for 2010. No known matters exist at this time that would have a significant effect on the financial position of the Authority or on its expected results of operations for the coming year.

CONTACTING THE AUTHORITY'S FINANCIAL MANAGEMENT

**MONROE COUNTY AIRPORT AUTHORITY
(A DISCRETELY PRESENTED COMPONENT UNIT OF THE COUNTY OF MONROE, NEW YORK)**

**NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2010 AND 2009
(000's Omitted)**

1. ORGANIZATION

The Monroe County Airport Authority (the Authority) is a public benefit corporation that was created to finance, construct, develop, operate, and maintain aviation and other related facilities and services within the County of Monroe (the County), and is included in the reporting entity of the County. The Authority is organized under the Public Authorities Law of the State of New York. The oversight body is the Authority board, which is approved by the County Legislature on the recommendation of the County Executive. The chairperson is appointed by the County Executive. The County's Director of Finance serves as Treasurer of the Authority. The Authority leases the Greater Rochester International Airport (the Airport) from the County and operates under the terms of a trust indenture (the indenture) dated September 15, 1989, as amended.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The Authority's financial statements are prepared in conformity with accounting principles generally accepted in the United States as set forth by the Governmental Accounting Standards Board (GASB) for proprietary funds. Private sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in the proprietary fund financial statements to the extent they do not conflict or contradict guidance of the GASB. Governments also have the option of following subsequent private sector guidance for their business type activities and enterprise funds. The Authority has elected not to follow subsequent private sector guidance.

Basis of Presentation

GASB requires the classification of net assets into three classifications defined as follows:

- Invested in capital assets, net of related debt - This component of net assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets. If there are significant unspent related debt proceeds at year-end, the portion of the debt attributable to the unspent proceeds is not included in the calculation of invested in capital assets, net of related debt. Rather, that portion of the debt is included in the same net assets component as the unspent proceeds.
- Restricted net assets - This component of net assets consists of amounts which have external constraints placed on its use imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or constraints imposed by law through constitutional provisions or enabling legislation.
- Unrestricted net assets - This component consists of net assets that do not meet the definition of "invested in capital assets, net of related debt", or "restricted".

When both restricted and unrestricted resources are available for use, it is the Authority's policy to use restricted resources first, and then unrestricted resources as they are needed.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Revenues and Expenses

The Authority's principal sources of revenue are landing fees and terminal rentals from airlines using the Airport, car rental commissions, parking, and concession fees. Revenues are recognized upon provision of services. The Authority contracts with certain airlines via a signatory agreement that defines the use of, and rates charged for, airport space and facilities. Rates charged by the Authority to the airlines are intended to recover total budgeted operating costs, as defined by the signatory agreement, which excludes depreciation and amortization and accrued interest; but, includes principal and interest paid on related debt. At the end of each fiscal year, the budgeted amounts are reconciled with actual costs incurred and any resulting receivable or payable is settled with the signatory airlines. This revenue is recorded in accordance with agreements between the Authority and the airlines that will expire on December 31, 2012.

Operating expenses include the cost of services provided, administrative expenses, and depreciation and amortization on capital assets. All revenues and expenses not meeting these classifications are reported as nonoperating revenues and expenses.

Cash and Cash Equivalents

Cash and cash equivalents include certificates of deposit, money market funds, and U.S. Government securities. Cash and cash equivalents are stated at cost, which approximates fair value.

Investments

The Authority's investments consist of certificates of deposit with maturities greater than three months at the time of purchase and obligations of the U.S. Government. Investments are stated at cost, which approximates fair value. Investment instruments are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect the amounts reported on the accompanying financial statements.

Capital Assets

The Airport facilities, except those that were financed through the 1989 bond issuance, are owned by the County and leased to the Authority (Note 4). Facilities owned by the County (and the related debt) are not recorded in the Authority's financial statements but are recorded by the County. The Authority capitalizes facilities, property, and equipment acquired at an original cost greater than \$2.5 thousand and a useful life greater than one year. The County carries insurance coverage on the facilities, property and equipment, which includes minimal deductible payments. Amortization for improvements to the leased airport facilities is provided on a straight-line basis over the shorter of useful life or the remaining term of the lease from the time of acquisition. Depreciation and amortization is computed primarily on a straight-line basis over the estimated useful lives of the property and equipment, which range from two (2) to twenty (20) years.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Passenger Facility Charges

The Aviation Safety and Capacity Expansion Act of 1990 (Public Law 101-508, Title II, Subtitle B) authorized the imposition of local Passenger Facility Charges (PFC) and use of resulting PFC revenues for Federal Aviation Administration (FAA) approved projects. The PFCs that the Authority has been authorized by the FAA to collect are as follows:

<u>Rate</u>	<u>Effective Date</u>	<u>FAA Approved</u>
\$3.00	December 1, 1997	September 1997
\$3.00	April 1, 2004	November 1997
\$4.50	September 1, 2004	June 2004
\$4.50	September 1, 2013	July 2006

PFCs may only be collected one at a time and must be collected in consecutive order of their approval. The excess (deficit) of amounts collected over amounts expended in each year is recorded as capital contributions in the statements of revenues, expenses and change in net assets. Cumulative amounts collected, yet unexpended at December 31, are reflected as net assets restricted for passenger facility projects in the statements of net assets.

Deferred Bond Costs

Bond premiums, discounts, issuance costs, and the deferred amount on refinancing related to the issuance of the debt obligations are amortized over the terms of the respective bonds using a level yield method of amortization. Amortization in 2010 and 2009 was \$357 and \$387, respectively.

Taxes

As a public benefit corporation, the Authority is exempt from Federal and state income taxes, as well as from state and local property and sales taxes.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Reclassifications

Certain prior year amounts have been reclassified to conform with the current year presentation.

3. CASH, CASH EQUIVALENTS AND INVESTMENTS

The guidelines established by the Authority permit the investment of funds held by the Authority and funds held in trust for the Authority to be invested in accordance with New York State Public Authorities Law. Investments must be in the form of obligations of the State of New York, or in general obligations of its political subdivisions; obligations of the United States or its agencies whose principal and interest payments are fully guaranteed by the federal government; and in collateralized time deposits or certificates of deposit issued by a commercial bank or trust company, which is a member of the Federal Deposit Insurance Corporation (FDIC). The Authority's investment policy limits its deposit and investment activity to time deposits, demand deposits, certificates of deposit, United States Government obligations and repurchase agreements.

The Authority's investment policy requires its deposits and investments, except repurchase agreements and direct purchases of obligations of New York State or its political subdivisions or guaranteed by the federal government, to be at least 100% collateralized through federal deposit insurance or other obligations. Obligations that may be pledged as collateral are obligations of, or guaranteed by, the United States or the State of New York. Collateral must be delivered to the Authority or an authorized custodial bank. The policy does not address credit risk specifically; however, risk associated with these investments has been minimized by the fact that they are held in a trust separate from the custodian's assets, which could be claimed by creditors.

Bank accounts at December 31, 2010 and 2009 are either fully insured by the FDIC or are fully collateralized. The investments outstanding as of December 31, 2010 and 2009 are held by the Authority's agents in the Authority's name.

Cash equivalents (not including depository accounts) and investments that are unrestricted and those restricted as to use but maintained by the Authority consisted of the following for the years ended December 31:

	<u>2010</u>	<u>2009</u>
Money market	\$ <u>17,341</u>	\$ <u>22,408</u>

At December 31, 2010 and 2009, money market funds were held by Bank of America and Manufacturers and Traders Trust (M&T). Bank of America was rated P-1 for short-term investments by Moody's Investors Service (Moody's) while M&T had no similar short-term investment rating, although its deposits are rated A1/P-1 by Moody's.

Custodial Credit Risk

For cash deposits or investments, custodial credit risk is the risk that, in the event of failure of the counterparty, the Authority will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. United States Treasury obligations are exempt because they are backed by the United States government. The Authority's collateral related to the above is as follows for the years ended December 31:

	<u>2010</u>	<u>2009</u>
FDIC	\$ 3,011	\$ 2,918
Collateralized with securities held by pledging financial institution	<u>17,329</u>	<u>22,620</u>
	<u>\$ 20,340</u>	<u>\$ 25,538</u>

3. CASH, CASH EQUIVALENTS AND INVESTMENTS (Continued)

Custodial Credit Risk (Continued)

The following investments, excluding those held by the trustee, held with one financial institution represent five percent or more of the Authority's total investments subject to credit risk at either December 31, 2010 or 2009, or both:

	<u>2010</u>	<u>2009</u>
M&T	\$ 17,589	\$ 20,252
Bank of America	\$ 2,246	\$ 2,156

Funds Held By Trustee

Cash and Investments that are restricted include funds required to be maintained by the trustee pursuant to the indenture related to the various bond issues of the Authority and are uncollateralized. Assets held by the trustee consisted of the following for the years ended December 31:

	<u>2010</u>	<u>2009</u>
Cash	\$ 6,408	\$ -
U.S. Treasury bills	6,570	-
Certificates of deposit	<u>-</u>	<u>7,071</u>
	<u>\$ 12,978</u>	<u>\$ 7,071</u>

4. TRANSACTIONS WITH MONROE COUNTY

Operating and Maintenance Expense

The Authority and the County entered into a lease and operating agreement in September 1989. The leased property includes all of the County's right, title, and interest in the Airport. Under this agreement, the County is to administer and operate the Airport. In return, the Authority is to reimburse the County for expenses incurred in the administration and operation of the Airport. All such expenses including payroll and related costs are reimbursed by the Authority using the accrual basis of accounting. Upon expiration or early termination of the lease term, the Airport reverts to the County. The lease expires 30 days after repayment of the Airport revenue bonds, which are scheduled to be repaid by January 1, 2019. Amounts due to/from Monroe County represent the net balances pursuant to the agreement.

4. TRANSACTIONS WITH MONROE COUNTY (Continued)

Rent Expense

The Authority is required to make annual rental payments to the County equal to the principal and interest due for the year on Airport-related debt issued by the County both prior and subsequent to the inception of the Authority, net of earnings on related debt service. In 2010 and 2009, the rental payments totaled \$2,840 and \$2,424, respectively. Estimated future minimum rental payments are as follows at December 31:

2011	\$	3,265
2012		2,688
2013		2,662
2014		2,673
2015		2,592
2016 - 2020		8,986
2021 - 2025		6,215
2026 - 2029		<u>3,373</u>
	\$	<u>32,454</u>

The above schedule presumes that the Authority's lease will continue beyond the lease's current expiration date.

In 2005, resolution number seventeen was passed by the Authority requiring the Authority to pay interest on funds advanced by the County that is based on the County's expected return on other short-term investments. In 2010 and 2009, the Authority did not receive advances from the County, and therefore no interest payments were made in 2010 or 2009.

5. CAPITAL ASSETS

Capital asset activity for the year ended December 31, 2010 was as follows:

	<u>Beginning Balance</u>	<u>Increases</u>	<u>Decreases</u>	<u>Ending Balance</u>

6. LONG-TERM DEBT

Series 1993 and 2004 Bonds

In June 1993, the Authority issued Revenue Refunding Bonds to partially refund outstanding 1989 Series Bonds. The proceeds received, net of bond discount and issuance costs, were used to purchase U.S. Government securities to refund the 1989 Series Bonds, including an additional reserve requirement representing a deferred amount on refunding. The deferred amount on the refunding was being amortized over the term of the 1993 Series Bonds.

In March 2004, the Authority issued Revenue Refunding Bonds to refund the outstanding 1993 Series Bonds. The proceeds received, net of bond discount and issuance costs were used to purchase U.S. Government securities. The transaction resulted in a deferred amount on refunding to the Authority related to the difference between the reacquisition price and the net carrying amount of the 1993 Series Bonds at the date of issuance of the 2004 Series Bonds of \$2,112. This deferred amount on refunding is being amortized over the term of the Series 2004 Bonds.

The Series 2004 Bonds maturing after January 1, 2015, are subject to redemption by the Authority, in whole or in part, at any interest payment date on or after January 1, 2014.

Series 1989 and 1999 Bonds

In October 1999, the Authority issued Revenue Refunding Bonds to partially refund outstanding 1989 Series Bonds. The proceeds received, net of bond discount and issuance costs were used to purchase U.S. Government securities to refund the 1989 Series Bonds.

The 1989 Series Bonds were the original debt issuance pursuant to the indenture, the purpose of which was to provide financing for the original construction of the Airport.

The 1999 Series Bonds are not subject to redemption prior to their maturity.

6. LONG-TERM DEBT (Continued)

Bond activity for the year ended December 31, 2010 was as follows:

	<u>Beginning Balance</u>	<u>Increases</u>	<u>Decreases</u>	<u>Due Within One Year</u>	<u>Ending Balance</u>
Bonds issued as part of the 1999 refunding: Serial bonds maturing in annual amounts ranging from \$300 to \$6,330 from 2002 to 2019 bearing interest paid semi-annually at 4.750% to 5.875%	\$ 49,695	\$ -	\$ (3,815)	\$ (4,025)	\$ 41,855

6. LONG-TERM DEBT (Continued)

Bond activity for the year ended December 31, 2009 was as follows:

	<u>Beginning Balance</u>	<u>Increases</u>	<u>Decreases</u>	<u>Due Within One Year</u>	<u>Ending Balance</u>
Bonds issued as part of the 1999 refunding: Serial bonds maturing in annual amounts ranging from \$300 to \$6,330 from 2002 to 2019 bearing interest paid semi-annually at 4.750% to 5.875%	\$ 53,310	\$ -	\$ (3,615)	\$ (3,815)	\$ 45,880
Bonds issued as part of the 2004 refunding: Serial bonds maturing in annual amounts ranging from \$980 to \$1,860 from 2005 to 2019 bearing interest paid semi-annually at 2.000% to 4.000%	16,610	-	(1,175)	(1,230)	14,205
Less: Unamortized bond discount	(191)	-	32	-	(159)
Less: Deferred amount on refunding	<u>(2,402)</u>	<u>-</u>	<u>406</u>	<u>-</u>	<u>(1,996)</u>
Long-term debt	<u>\$ 67,327</u>	<u>\$ -</u>	<u>\$ (4,352)</u>	<u>\$ (5,045)</u>	<u>\$ 57,930</u>

All outstanding Revenue Bonds were issued under the terms of a universal indenture agreement. The indenture pledges certain revenues and other income collected by the Authority, primarily for payment of principal and interest on the bonds. The indenture also requires the establishment of various trust funds to be held by the trustee and by the Authority.

Management believes the Authority is in compliance with all covenants under the indenture. The Authority is required to maintain at a minimum, certain financial ratios and balances, as defined in the agreements. The required and actual ratios and balances consisted of the following at December 31:

	<u>2010</u>		<u>2009</u>	
	<u>Required</u>	<u>Actual</u>	<u>Required</u>	<u>Actual</u>
Net revenue to debt service	1.25:1	1.53:1	1.25:1	1.47:1
Debt service reserve requirement	\$ 6,009	\$ 8,620	\$ 6,513	\$ 8,626
Operating and maintenance reserve requirement	\$ 2,857	\$ 2,966	\$ 2,720	\$ 2,952
Renewal and replacement requirement	\$ 500	\$ 6,203	\$ 500	\$ 5,463

6. LONG-TERM DEBT (Continued)

The excess of actual renewal and replacement funds over the required amount is primarily due to funds transferred into the renewal and replacement fund for the purchase of capital expenditures.

The indenture between the Authority and the trustee dated September 15, 1989, as amended, provides for the creation and maintenance of several bank subaccounts related to the debt issues. These subaccounts are aggregately reflected as a part of net assets in the accompanying statement of net assets. A brief description of each of these subaccounts is as follows:

- Revenue Account - Represents revenues of the Authority, net of certain transfers to the other accounts created under the indenture. The amounts designated for this account are included in unrestricted cash and cash equivalents in the accompanying statements of net assets.
- Principal and Interest Account - Represents amounts required to be reserved for debt service for each respective bond issue. The amounts designated for this account are reported as assets that are restricted funds, held by trustee in the accompanying statements of net assets.
- Construction Account - Represents an account required to be held by the trustee. The trustee establishes a separate project account for each construction project. The amounts designated for this account, to the extent that there are any, are reported as assets, that are restricted funds, held by trustee in the accompanying statements of net assets.
- Renewal and Replacement Account - Represents funds for anticipated capital expenditures. The amounts designated for this account are reported as a component of restricted cash and cash equivalents in the accompanying statements of net assets.
- Operating and Maintenance Reserve Account - Represents amounts to be reserved for at least one-sixth of the budgeted operating and maintenance expenses for the succeeding fiscal year. The amounts designated for this fund are reported as a component of restricted cash and cash equivalents in the accompanying statements of net assets.
- Surplus Account - Represents amounts defined by the indenture that are subject to use by the Authority, including transfers to other accounts, as appropriate.

Other

Payment of the principal and interest on the Authority's bonds is insured by the Municipal Bond Investors Assurance Corporation.

Maturities of revenue bonds for the fiscal years after December 31, 2010 are as follows:

	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2011	\$ 5,315	\$ 3,156	\$ 8,471
2012	5,625	2,848	8,473
2013	5,945	2,522	8,467
2014	6,275	2,178	8,453
2015	6,625	1,825	8,450
2016 - 2020	<u>30,300</u>	<u>3,408</u>	<u>33,708</u>
	<u>\$ 60,085</u>	<u>\$ 15,937</u>	<u>\$ 76,022</u>

7. CAPITAL CONTRIBUTIONS

Of the \$98,371 that the Authority is authorized to collect in PFCs, \$58,049 and \$52,766, respectively, has been collected through December 31, 2010 and 2009. The net of collections, interest and expenditures is recorded as capital contributions.

	<u>2010</u>	<u>2009</u>
Balance - beginning of year	\$ 90	\$ 111
Collections	5,284	5,291
Interest earnings	1	1
Expended	<u>(5,365)</u>	<u>(5,313)</u>
Balance - end of year	<u>\$ 10</u>	<u>\$ 90</u>

As of December 31, 2010 and 2009, \$10 and \$90, respectively, are reflected as restricted net assets for passenger facility projects in the statement of net assets.

8. CONCENTRATIONS

In 2010, eight signatory airlines accounted for approximately 38% and 78% of the landing and rental fee revenues, respectively. The same eight signatory airlines accounted for approximately 38% of the total accounts receivable in 2010.

In 2009, eight signatory airlines accounted for approximately 41% and 79% of the landing and rental fee revenues, respectively. The same eight signatory airlines accounted for approximately 45% of the total accounts receivable in 2009.

Car rental commission revenue is generated from six agencies, one of which accounted for approximately 24% and 26% of such revenue in both 2010 and 2009.

9. CONTINGENCIES

The Authority is subject to litigation in the ordinary conduct of its affairs. Management does not believe that such litigation, individually or in the aggregate, is likely to have a material adverse effect on the financial condition of the Authority.

10. LEASE AGREEMENTS

The Authority maintains certain noncancellable lease agreements with various customers for terminal and other space that expire at various dates through 2037. The amounts expected to be collected under these agreements are as follows for the years ended December 31:

2011	\$	884
2012		880
2013		880
2014		881
2015		813
2016 - 2020		2,805
2021 - 2025		1,923
2026 - 2030		1,743
2031 - 2035		1,095
2036 - 2037		<u>438</u>
	\$	<u>12,342</u>

The above schedule presumes that the Authority's lease with the County will continue beyond current expiration date, which is January 1, 2019.

11. MANAGEMENT AGREEMENT

On January 1, 2007 the Authority entered into a five (5) year contract with MAPCO Auto Parks LTD., as an Agent, to manage the public parking facilities at the Greater Rochester International Airport. The Authority has the option to renew this contract for up to two additional three year terms. Under the terms of this Agreement, the Authority retains the right to establish parking rates. The Agent manages all public parking facilities including a three story structural parking garage; a short term and a weekly lot, and on an Airport shuttle lot, several employee lots; as well as economy shuttle lots located in close proximity to the Airport terminal. The Agent operates and maintains the Airport parking facilities in accordance with the terms of this agreement. The Agreement provides that certain approved expenses are the responsibility of the Agent. The contract also provides the management fee calculation based upon the gross revenues per month. Management fees paid to the Agent for the years ending December 31, 2010 and 2009 were \$584 thousand, and \$577 thousand, respectively.

AUDIT OF FINANCIAL STATEMENTS PERFORMED IN
ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

March 28, 2011

To the Members of
Monroe County Airport Authority:

We have audited the financial statements of the business-type activities of Monroe County Airport Authority (the Authority) (a public benefit corporation of the State of New York and a discretely presented component unit of the County of Monroe, New York) as of and for the year ended December 31, 2010, which collectively comprise the Authority's basic financial statements and have issued our report thereon dated March 28, 2011. We conducted our audit in accordance with auditing standards generally accepted in the United States and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the Authority's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Authority's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Authority's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. *A material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING
AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN
AUDIT OF FINANCIAL STATEMENTS PERFORMED IN
ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS***

(Continued)

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Authority's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information and use of management, the members of the Authority, others within the entity, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.
