Basket Road Improvement Project Newsletter #2

NOTICE: Road Closure to begin July 5, 2016

This informational newsletter is being distributed to provide updates on the status of the project and communicate upcoming activities to effected properties and interested parties.

Project Description

The Monroe County Department of Transportation has contracted with Keeler Construction Company Co, Inc., to construct the Basket Road Improvement Project. The limits of the project on Basket Road are from Schlegel Road to Lake Road. The project will construct new 5 foot wide paved shoulders, as well as mill and overlay the roadway with 2 new courses of asphalt pavement. The project also includes the lowering of 2 hills (one south of Woodard Road and one north of Woodard Road) which will require a posted detour around the work area for one week each. The **first** detour is scheduled to begin on July 5, 2016 at 9:00 a.m. You will receive more detailed information on the exact date of the second detour in a future newsletter mailing later this summer.

Current Project Status

Basket Road will be closed to vehicular traffic between house #379 and house #394 in order to lower the hill in this area. A detour will be posted (see next page for a map). **The road will close at 9:00 a.m. on July 5, 2016.** The road is scheduled to be closed for 7 days. Efforts will be made to reopen all driveways to the effected homes in the hill lowering area by the end of each workday. If access is needed during the workday, please notify our onsite staff and they will replace the stone ramp into the driveway as needed. Thank you for your continued cooperation during this project.

Overall Schedule

The current schedule is to have this project completed this fall.

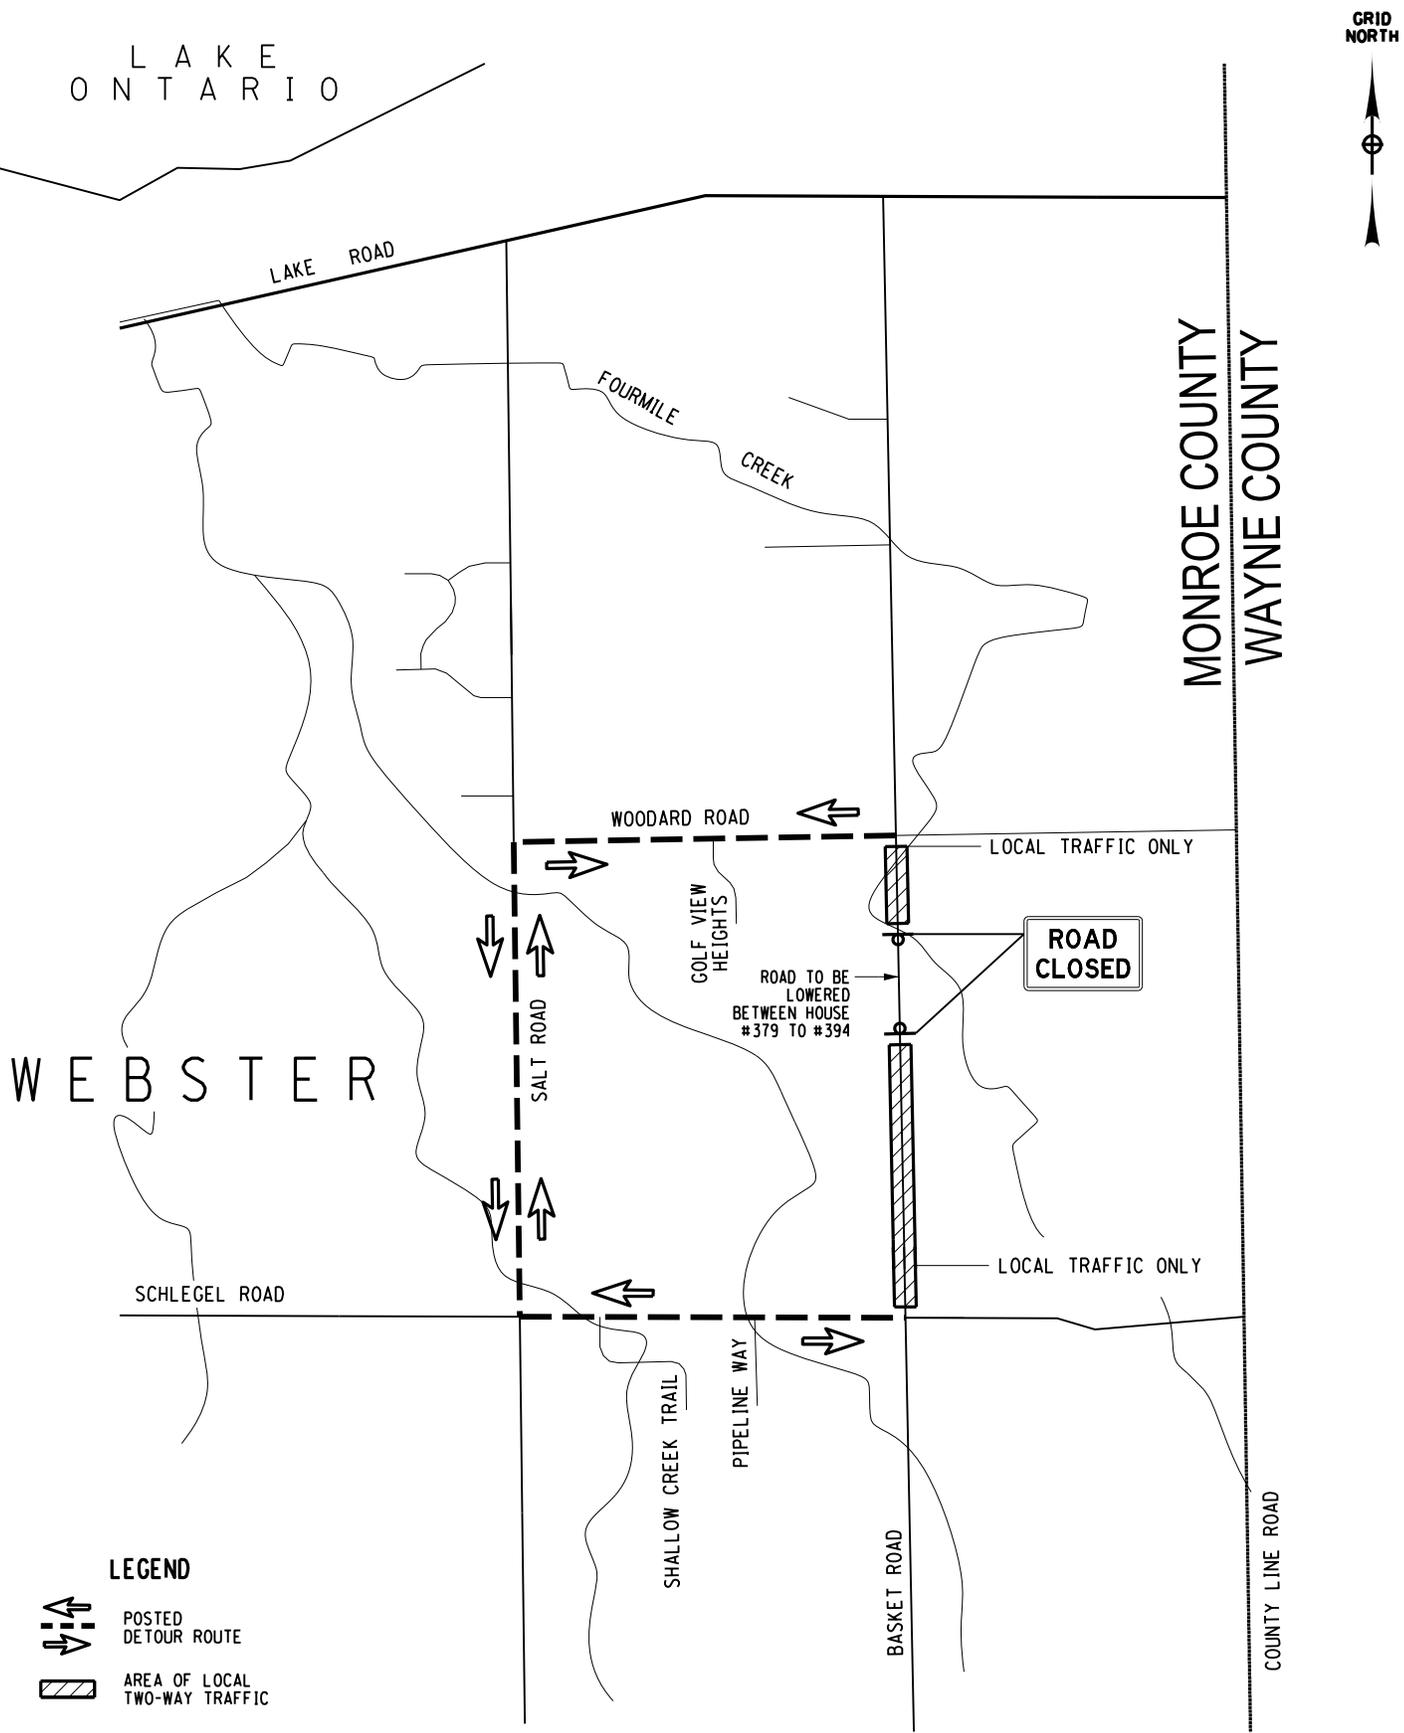

Project Contact Information If you have questions:

Full time inspection staff is on site daily working with the contractor. If you have a question or a concern regarding the work, please contact the Resident Engineer or the Project Manager below.
