

BUY-A-BRICK CAMPAIGN

As County Executive, I am proud to announce the Buy-A-Brick Campaign to support the newly built Sands Family-Constellation Building at the Monroe County Pediatrics and Visitation Center. Through the fundraising efforts of our local social services district and SPCC, I invite you to make a lasting impression on the lives of our children by purchasing a brick that will forever signify your commitment to supporting a strong, healthy and thriving community.

Our new Center is the first-of-its-kind nationwide and offers an innovative approach to ensuring that healthy children and families continue to be a priority in our community. By coordinating health and mental health services, evidenced based programs and supervised visitation, we will powerfully influence outcomes while more efficiently utilizing our limited resources and staff. Providing cost effective programs with a proven track record of success is a win-win situation for our entire community.

Monroe County is nationally recognized for our outstanding work with youth and children. Our new Center will enhance our already established, premier medical home for foster care children and co-locate it with a supervised visitation center. It will continue our proud tradition of investing in our children and it once again puts us on the map as a model community.

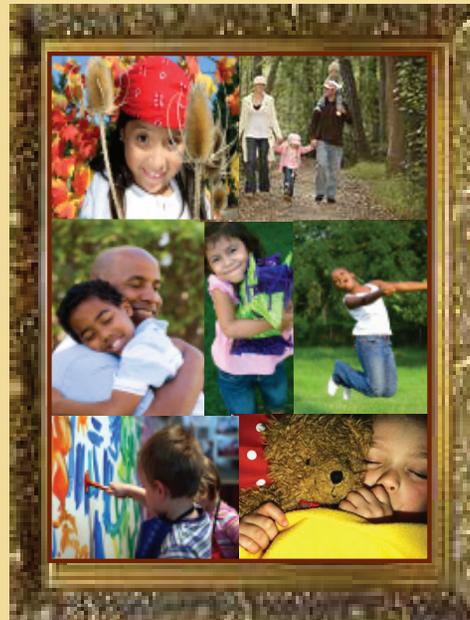

Please join me in supporting the Center by purchasing an everlasting expression of your support for our children. We will proudly display your brick near the front entrance of the Center for the entire community to enjoy.

Sincerely,

Maggie Brooks
Monroe County Executive

The Vision of Innovation

The Sands Family-Constellation at the Monroe County Pediatrics and Visitation Center is a first-of-its-kind, state-of-the-art facility designed to serve over 800 local foster care children annually.

The Center is located on the campus of the Monroe Community Hospital. The Society for the Protection and Care of Children (SPCC) partner with us in providing visitation services at the Center. Enhanced services for foster care children are offered in one central location and include:

- primary health services,
- supervised visitation,
- on-site mental and developmental health services, including assessment and evaluations, and
- parenting education programs.

About Us

Starlight Pediatrics is Monroe County's nationally recognized medical home providing high quality medical care to our community's foster care children since 1989. To better improve outcomes for our foster care children, Monroe County and its collaborative partners have embarked on a project that co-locates our nationally recognized medical home with a supervised visitation center to provide accessible, comprehensive family centered care that will help cultivate a strong, healthy, and thriving community.

When a Building is More Than Bricks and Mortar

Leave an everlasting display of your generosity by purchasing an engraved brick that will be placed in a path leading up to the Center.

* Your donation is potentially tax deductible. Please consult with your tax advisor. The maximum tax deductible amounts for an individual brick is \$70.00 and \$183.00 for a corporate brick.
